List of Tables

Table 1-1- The gender structure of population, 1966 – 1996 30
Table 1-2- Literacy Rate Adult, male and female and total (% of age 15 and above) 32
Table 1-3- Table 5-Human Development Index 33
Table 3-1- Input and Output Variables, its Approaches, and Techniques used: 78
Table 3-2- Input –Output Variables, estimation methods used in several studies: 79
Table 4-1- Yearly trend of Agricultural sector output 87
Table 4-2- livestock products 89
Table 4-3- The present status of Iran Crude oil 92
Table 4-4- Domestic Consumption of Oil Products 93
Table 4-5- Iran Oil Export 94
Table 4-6- Active population and participation rate, 1956 – 1996 111
Table 4-7- Population, Active population rate by gender 111
Table 4-8- Employment and unemployment population, 1956 - 1996 112
Table 4-9-Trends of macroeconomic indices During 3rd Five-Year Development Plan 123
Table 5-1- Modes of banking operations in Iran 198
Table 5-2- Deposits of Banks in Iran, in billions of Iranian 206
Table 5-3- Composition of non-demand deposits 208
Table 5-4- The rate of Return for different type of deposits 211
Table 5-5- Composition of certain deposits in the liquidity of the private sector 216
Table 5-6- The Liquidity by factors supply 219
Table 5-7- Composition of diverse type of loans in asset side of system 222
Table 5-8- Composition of indirect financing 225
Table 5-9- The composition of indirect financing (Debt Purchase and Qard al-hassana) 230
Table 5-10- Ratios of Reserve Requirements (expressed as a percentage of deposits) 235
Table 5-11- Changes in outstanding facilities extended by public banks to the non-public sector 236
Table 5-12- Sector Wise Expected Rate Of Return 244
Table 5-13- Islamic Republic of Iran; vulnerability of financial sector indicators 253
Table 6-1 - Technical Efficiency, Scale Efficiency and Return to Scale for input-orientated 1996
Table 6-2 - TE (CRS), TE (VRS), SE and Return to Scale in output-orientated DEA model 1996
Table 6-3 - Summary of output/input slacks of DEA estimate - 1996
Table 6-4 - TE (CRS), TE (VRS), SE and Return to Scale in input-orientated approach 1997
Table 6-5 - TE (CRS), TE (VRS), SE and Return to Scale in output-orientated DEA model 1997
Table 6-6 - Summary of output/input slacks of DEA estimate - 1997
Table 6-7 - TE (CRS), TE (VRS), SE and return to scale - 1998
Table 6-8 - Summary of input and output slacks - 1998
Table 6-9 - TE (CRS), TE (VRS), SE, Return to Scale - 1999
Table 6-10 - Summary of output/input slacks of DEA estimate - 1999
Table 6-11 - TE (CRS), TE (VRS), SE, Return to Scale - 2000
Table 6-12 - Summary of input and output slacks - 2000
Table 6-13 - TE (CRS), TE (VRS), SE, Return to Scale - 2001
Table 6-14 - Summary of input and output slacks - 2001
Table 6-15 - TE (CRS), TE (VRS), SE, Return to Scale - 2002
Table 6-16 - Summary of input and output slacks - 2002
Table 6-17 - TE (CRS), TE (VRS), SE, Return to Scale - 2003
Table 6-18 - Summary of input and output slacks - 2003
Table 6-19 - TE (CRS), TE (VRS), SE, Return to Scale - 2004
Table 6-20 - Summary of input and output slacks - 2004
Table 6-21 - Technical efficiency on CRS
Table 6-22 - Technical Efficiency on VRS
Table 6-23 - Scale Efficiency
