Acknowledgements

The candidate thanks Prof. G.R. Soman, Head, Department of Geology, University of Pune, for his support, encouragement and for granting permission to utilise the facilities at the Department. Special thanks are due to my Guide Prof. N.R. Karmalkar for introducing me to the fascinating world of mantle petrology and for sparing his valuable time during several field sessions, in the laboratory and for the critical and fruitful discussions. I am greatly indebted to him for carrying out the EPMA analysis through a collaboration with GEMOC, Macquarie University, Sydney, Australia. Dr. Karmalkar and I, are ever so grateful to Prof. William Griffin and Prof. Susanne O’Reilly for making available the various facilities at the Key Center. We have greatly benefited from their vast experience and knowledge. We are also grateful to Miss Carol Lawson and Dr. Norm Pearson for their help in the microprobe analysis and Mrs. Ashwini Sharma for her help in the ICPMS microprobe analysis. We thank Dr. Mark Norman and the post Doctoral fellows at the Center for fruitful discussions.

Prof. A.M. Patwardhan, Prof. S.S. Thigale and Prof. A.V. Phadke all former Head of Geology Department are thanked for their co-operation, help and encouragement. Prof. N.J. Pawar, Department of Geology, University of Pune, was instrumental in motivating me to undertake and continue with studying the mantle xenoliths and alkaline magmatism from Kutch. Prof. V. V. Peshwa, Prof. V. G. Phansalkar, Prof. S.B. Deolankar and Dr. D.C. Meshram are also thanked for their help and encouragement. Dr. M.A. Koregave and all my Teachers at the Geology Department, Noreosjee Wadia College are thanked for the encouragement and support. Prof. Ichiro Kaneoka, Earthquake Research Centre, Japan permitted analyses of few samples for major oxide and select trace elements by XRF technique. Dr. Hetu Sheth, Indian Institute of Technology, Powai, Mumbai, is thanked for calculating the CIFW norms and providing the copy of SINCIALS program. Dr. Shiva K. Patil, Indian Institute of Geomagnetism is thanked for posting the latest reprints on the alkaline rocks and for discussing the paleomagnetics of the magmatic rocks from Kutch. Dr. Ninad Bondre, Department of Geology, Miami University, Oxford, Ohio, USA is thanked for his generosity in providing preliminary analyses of lava flows from the Kukma area. Ninad was also kind enough to photocopy and send several reprints. Dr. Vivek Kale, Dr. Himanshu Kulkarni and Dr. P. Sarkar are thanked for their encouragement and support. I am grateful to my friends, especially Dr. Makarand Kale, Sudhir Dashmane, Porittran Sharma, Summet Chavan, Vilas Bhoskar and Nivruti Kand for their constant encouragement.
and for assisting with the fieldwork on more than one occasion. Help on various occasions from the teaching, technical- and non-teaching Staff; especially Pangarkar, Kapre and Gaikwad, at the Department is acknowledged. My colleagues and friends at the Department require special mention for maintaining a cheerful atmosphere. I thank many people for long and interesting discussions on this topic over the years and to those who have suggested changes in the thesis.

I am indebted to Radheshyam L. Mopalwar Sir for his relentless support to R&D initiatives at GSDA, Pune. His never-say-die spirit was infectious and served as an impetus to this work. Shri. Arun K. Mahagaonkar is thanked for his anecdotes, humor and fatherly advice. It has been a wonderful learning experience working with him at the R&D Cell. Shri. V. Krishnamurthy has generously supported all my academic and R&D endeavours, for which I thank him. Shri. Vikas Kharge, Director GSDA was kind enough to granting leave despite the office pre-occupations. Shri. S.B. Khandale, Additional Director, GSDA is thanked for the encouragement and believing in my ability to complete this thesis. Dr. Shivaji Thorat and Dr. Milind Deshpande have been driving me crazy to complete this thesis. Shri. Uday R. Patankar, Shri. Deepak S. Katwate, Shri. B.N. Kulkarni and Smt. Sheela Patil have been proactive in motivating me during bouts of despair. Shri. S.M. Deshpande, Rajesh Sharma, Pradip Kadam, Smt. P. Jere, Smt. Subodhana and Shri. R.G. Kulkarni and staff have substituted for me at the work place on more than one occasion. This thesis would not have materialized without their co-operation.

Thanks are also due to Mrs. Rohini Karmalkar and Swarali for sharing their beloved’s time. To Vishwas Joshi, Trilok Rajput, Gauri Dole, Vinit Phadnis & my other close friends for pestering me constantly to excel. To my wife Sheetal, son Neil and little Tulika, I owe a lot- especially for bearing patiently my absence! Moral support from Uncles and Auntes, brothers Vinod and Arulappan, sisters Anita, Amolina and Leena mean a lot to me. Little talkative Karen has rejuvenated me on several occasions with strength to carry on. To papa Jagdishprasad Bahuguna, Sushila ma, Satish and Arvi, for being patient with me.

Last but not the least, I dedicate this thesis to my parents, Ashirwad and Lilly Duraiswami, who have inculcated in me patience, scientific temperament and for bestowing on me the great gift of ‘humility’. Their sacrifice will continue to inspire me to achieve greater heights.

Pune

Raymond A. Duraiswami
