</table>
Large-scale thermosyphon dryer for direct or indirect heating
Forced flow drying with a tray batch dryer
Drying plant for leafy products with forced air flow
Forced Circulators Systems for Grains Drying
Various Types of Roof or wall integrated collectors for in storage drying of grain
Wall Integrated Collector in a grain drying system
Roof Integrated Collector for a multi-conveyor herb drying plant
Roof Integrated Collector for a Drying System for Herb with Heat Recovery from the Exhausted Air
Integrated Collector For In-barn hay drying in Bales
Roof and Wall Integrated Collector for In-barn Solar Hay
Multiple Use of an Air Collector for Drying (Open loop operation), Domestic Hot water and space Heatings (closed loop operational)
Hybrid Collector for Air/Water Heating
Schematics of a Solar heated heat pump dehumidification system
Dehumidification drying System with Solar Regeneration
Typical Brace Drier
Walk-Through Drier
Tent Drier
New Mexico Drier
McDowell Fuel-Assisted Solar Drier
Chimney Drier
Box Dryer
Fruit and Vegetable Dryer
Simulated Moisture Content as a function of sunshine hours for different products
Solar Tunnel Drier
Solar Banana Dryer
Layout of Solar dryer for Onion dehydration
Forced Convection Solar Dryer
Solar Tunnel Drier
Approachable Gains in the Amount of Product achieved by using solar drying
3.16 Natural Convection Dryer
3.17 Solar Installation
3.18 Natural Convection Solar Dryer
3.19 Diurnal Curve for a solar cabinet dryer with indirect heating mode for data
3.20 Multi-rack solar dryer with variable inclination
3.21 Multi Dryer with Solar Air Heater
3.22 Percentage of the Total Moisture Removal Vs Drying Time
3.23 Percentage of the Total Moisture Removal Vs Drying Time
4.1 Schematic Diagram of Chilli Punching Machine
4.2 Schematic Diagram of Chilli De-stalking Machine
4.3 Method of Making "Raisins" from Fresh Grapes in Sangolli Distt. (Maharastra)
4.4 Sulphur Box
4.5 Greenhouse Type Solar Dryer
4.6 Solar Cabinet Dryer
4.7 Solar Portable Rack (wire-net) Dryer
5.1 Actual Time Taken During the Drying of Chillies (Jwala) by Different Drying Methods
5.2 Actual Time Taken During the Drying of Chillies (Pusa Sada Bahar) by Different Drying Methods
5.3 Average Time Taken During the Drying of Chillies (Jwala) by Different Drying Methods
5.4 Actual Time Taken During the Drying of Chillies (Pusa Sada Bahar) by Different Drying Methods

Figures 5.5 to 5.16: showing open floor sun drying for chillies

5.5 Variation of weight of chillies (Jwala) with time
5.6 Variation of moisture content of chillies (Jwala) with time
5.7 Variation of drying rate (dm/dt) of chillies (Jwala) with time
5.8 Variation of drying rate (dm/dt) of chillies (Jwala) with average moisture content
5.9 Variation of moisture ratio of chillies (Jwala) with time
5.10 Drying curves for chillies (Jwala)
5.11 Variation of weight of chillies (Pusa Sada Bahar) with time
5.12 Variation of moisture content of chillies (Pusa Sada Bahar) with time

5.13 Variation of drying rate \((\frac{dm}{dt})\) of chillies (Pusa Sada Bahar) with time

5.14 Variation of drying rate \((\frac{dm}{dt})\) of chillies (Pusa Sada Bahar) with average moisture content

5.15 Variation of moisture ratio of chillies (Pusa Sada Bahar) with time

5.16 Drying curves for chillies (Pusa Sada Bahar)

5.17 to 5.28: Showing the greenhouse type solar drying of chillies

5.17 Variation of weight of chillies (Jwala) with time

5.18 Variation of moisture content of chillies (Jwala) with time

5.19 Variation of drying rate \((\frac{dm}{dt})\) of chillies (Jwala) with time

5.20 Variation of drying rate \((\frac{dm}{dt})\) of chillies (Jwala) with average moisture content

5.21 Variation of moisture ratio of chillies (Jwala) with time

5.22 Drying curves for chillies (Jwala)

5.23 Variation of weight of chillies (Pusa Sada Bahar) with time

5.24 Variation of moisture content of chillies (Pusa Sada Bahar) with time

5.25 Variation of drying rate \((\frac{dm}{dt})\) of chillies (Pusa Sada Bahar) with time

5.26 Variation of drying rate \((\frac{dm}{dt})\) of chillies (Pusa Sada Bahar) with average moisture content

5.27 Variation of moisture ratio of chillies (Pusa Sada Bahar) with time

5.28 Drying curves for chillies (Pusa Sada Bahar)

Figures 5.29 to 5.40: showing the solar cabinet drying of chillies

5.29 Variation of weight of chillies (Jwala) with time

5.30 Variation of moisture content of chillies (Jwala) with time

5.31 Variation of drying rate \((\frac{dm}{dt})\) of chillies (Jwala) with time

5.32 Variation of drying rate \((\frac{dm}{dt})\) of chillies (Jwala) with average moisture content

5.33 Variation of moisture ratio of chillies (Jwala) with time

5.34 Drying curves for chillies (Jwala)

vi
5.35 Variation of weight of chillies (Pusa Sada Bahar) with time
5.36 Variation of moisture content of chillies (Pusa Sada Bahar) with time
5.37 Variation of drying rate (dm/dt) of chillies (Pusa Sada Bahar) with time
5.38 Variation of drying rate (dm/dt) of chillies (Pusa Sada Bahar) with average moisture content
5.39 Variation of moisture ratio of chillies (Pusa Sada Bahar) with time
5.40 Drying curves for chillies (Pusa Sada Bahar)

Figures 5.41 to 5.52: shows the fluidized bed (mechanical) drying of chillies

5.41 Variation of weight of chillies (Jwala) with time
5.42 Variation of moisture content of chillies (Jwala) with time
5.43 Variation of drying rate (dm/dt) of chillies (Jwala) with time
5.44 Variation of drying rate (dm/dt) of chillies (Jwala) with average moisture content
5.45 Variation of moisture ratio of chillies (Jwala) with time
5.46 Drying curves for chillies (Jwala)
5.47 Variation of weight of chillies (Pusa Sada Bahar) with time
5.48 Variation of moisture content of chillies (Pusa Sada Bahar) with time
5.49 Variation of drying rate (dm/dt) of chillies (Pusa Sada Bahar) with time
5.50 Variation of drying rate (dm/dt) of chillies (Pusa Sada Bahar) with average moisture content
5.51 Variation of moisture ratio of chillies (Pusa Sada Bahar) with time
5.52 Drying curves for chillies (Pusa Sada Bahar)

Figures 5.53 to 5.63: Outside-Inside Variations of Temperature and Rh for Different Solar Dryers During Chillies Drying (from 1st to 11th March, 2000)

5.64 Actual time taken during the drying of grapes (Thompson Seedless) by different drying methods
5.65 Average time taken during the drying of grapes (Thompson Seedless) by different drying methods

Figures 5.66 to 5.71: shows the portable rack (wire net) solar drying of Thompson Seedless grapes
5.66 Variation of weight of grapes (Thompson seedless) with time

5.67 Variation of moisture content in Grapes (Thompson Seedless) with time

5.68 Variation of drying rate (dm/dt) of Grapes (Thompson seedless) with time

5.69 Variation of drying rate (dm/dt) of grapes (Thompson seedless) with average moisture content

5.70 Variation of moisture ratio of grapes (Thompson seedless) with time

5.71 Drying curves of grapes (Thompson seedless)

Figures 5.72 to 5.77: Show the open floor sun drying of grapes (Thompson seedless)

5.72 Variation of weight of grapes (Thompson seedless) with time

5.73 Variation of moisture content in Grapes (Thompson Seedless) with time

5.74 Variation of drying rate (dm/dt) of Grapes (Thompson seedless) with time

5.75 Variation of drying rate (dm/dt) of grapes (Thompson seedless) with average moisture content

5.76 Variation of moisture ratio of grapes (Thompson seedless) with time

5.77 Drying curves of grapes (Thompson seedless)

Figures 5.78 to 5.83: Show the greenhouse type solar drying of grapes (Thompson seedless)

5.78 Variation of weight of grapes (Thompson seedless) with time

5.79 Variation of moisture content in Grapes (Thompson Seedless) with time

5.80 Variation of drying rate (dm/dt) of Grapes (Thompson seedless) with time

5.81 Variation of drying rate (dm/dt) of grapes (Thompson seedless) with average moisture content

5.82 Variation of moisture ratio of grapes (Thompson seedless) with time

5.83 Drying curves of grapes (Thompson seedless)

Figures 5.84 to 5.89: Show the solar cabinet drying of grapes (Thompson Seedless)

5.84 Variation of weight of grapes (Thompson seedless) with time
5.85 Variation of moisture content in Grapes (Thompson Seedless) with time 243
5.86 Variation of drying rate \((\text{dm/dt})\) of Grapes (Thompson seedless) with time 244
5.87 Variation of drying rate \((\text{dm/dt})\) of grapes (Thompson seedless) with average moisture content 244
5.88 Variation of moisture ratio of grapes (Thompson seedless) with time 245
5.89 Drying curves of grapes (Thompson seedless) 245

Figures 5.90 to 5.95: Show the fluidized bed (mechanical) drying of grapes (Thompson Seedless)

5.90 Variation of weight of grapes (Thompson seedless) with time 252
5.91 Variation of moisture content in Grapes (Thompson Seedless) with time 252
5.92 Variation of drying rate \((\text{dm/dt})\) of Grapes (Thompson seedless) with time 253
5.93 Variation of drying rate \((\text{dm/dt})\) of grapes (Thompson seedless) with average moisture content 253
5.94 Variation of moisture ratio of grapes (Thompson seedless) with time 254
5.95 Drying curves of grapes (Thompson seedless) 254

Figures 5.96 to 5.109: Show the outside-inside variation of temperature and relative humidity for different solar dryers during grapes drying (from 6\textsuperscript{th} to 19\textsuperscript{th} April, 2000)

5.110 Chemical Analysis of fresh grapes (Thompson seedless) 265

Figures 5.111 to 5.119 show the phsico-chemical analysis of dried grapes (raisins) obtained through different drying methods, after giving different pre-treatments

272-276
