ACKNOWLEDGEMENT

I wish to place on record my profound gratitude and thankfulness to Dr. G. J. Khudanpur, my research guide, who was a source of strength and inspiration to me throughout my study work and who gave me continuous encouragement and guidance. No words are adequate to express my gratitude to him for his valuable guidance which was freely available to me throughout the completion of this thesis.

I am grateful to Mr. B. K. Ghai, General Manager (S&C) of WCL, Nagpur for providing me necessary data and other relevant information for this work. I am also grateful to Sub Area Managers, Umrer, Kamptee and Saoner No. 2 & 3 of WCL, Nagpur and Colliery Manager, Mine No. 2 & 3 WCL Saoner Project, Nagpur for providing me necessary assistance and arrangements. I am very much thankful to Mr. Pitre, Mining Manager, Poona for his valuable suggestions and guidance in the field. I am also grateful to the Professors at the Department of Commerce and Management Science, University of Poona; Librarian of the Gokhale Institute Library, Librarian of Jayakar Library, University of Poona; British Library, Poona; for extending me Library facilities throughout my student-days.

I owe a special debt of gratitude to H.E. the Consul General of the Embassy of Islamic Republic of the Iran at Bombay, for their cooperation and help throughout my stay in India, which made this study possible.
At the movement of this turning point of my career, I remember my parents who inspired me throughout my study work due to which I could complete this big task successfully. I am indebted to my wife, Kaviyan Z. for whom the term 'Thanks' falls short of expressing my real feelings of indebtedness and gratitude, who supported and morally encouraged me to pursue my higher education. I also wish to place on record my deep affection and gratitude to my son Sharam (Meelad) who was a constant pleasure to me during this most difficult and trying period of my life.

Also, I wish to express my appreciation to all those with whom I worked/interacted and whose thoughts and insights helped me in furthering our knowledge and standing of the subject.

POONA (INDIA)
