ACKNOWLEDGEMENTS

It is a pleasure to thank the people who made this thesis possible.

I would like to express my deep and sincere gratitude to Dr. Dinendra Raychaudhuri, Professor, Entomology Laboratory, Department of Zoology, University of Calcutta, Kolkata for his erudite guidance, precious advice, constant inspiration, sustained interest and unbounded freedom that he has always given to me during the course of this study and preparation of the thesis. He showed me different ways to approach a research problem and the need to be persistent to accomplish any goal. I would have been lost without him.

I would like to express my special words of gratitude to Dr. Sumana Saha, Associate Professor, Department of Zoology, Lady Braboume College, Kolkata for her expertise, valuable suggestions, constant encouragement and various inputs for my research work.

I have the pleasure to extend my sincere words of thanks to my laboratory colleagues Mr. Tapan Kumar Roy, Mr. Dhruba Chandra Dhali, Mr. Sutirtha Sarkar, Dr. Samrat Bhattacharya, Mr. Somnath Dhali, Mr. Chanchal Ray, Mr. Manish Kanti Biswas, Mr. Subhankar Sarkar and Mr. Amlan Adhikary for their valuable helps, co-operations and constant support. Without persistent help of Tapan, Dhruba and Sutirtha the field work would not have been possible.

I am indebted to the Head, Department of Zoology, University of Calcutta for providing all the necessary facilities and infrastructures for carrying out the research work.

I wish to thank Department of Biotechnology, Govt. of India for the financial support.

I am thankful to the forest officials, Principal Chief Conservator of Forest & Chief Wildlife Warden, Conservators of Forest, Divisional Forest Officers of Directorate of Forests, Govt. of West Bengal for their necessary permission to work in the protected areas.
