ACKNOWLEDGEMENT

Research is a continuous process undertaken by an individual or a team of persons probing into the never ending, newer avenues of science. Many people known and unknown have contributed to the strengths of the dissertation. It is the matter of pride and elation for me to acknowledge the contribution of those individuals who have been inspirational, supportive and helpful throughout my work, and endowed me most precious knowledge to see success in my endeavor. My work bears the share of all those people and I am heartily grateful to all of them.

In the first place I would like to record my gratitude to my supervisor and guide Dr. Laxman J. Patel, M. Pharm. Ph.D., Ganpat University, for his consent, motivation and suggestions. Above all the most needed, he provided me unflinching encouragement and support in various ways. His truly artistic intuition has made him as a constant oasis of ideas and passions in research, which exceptionally inspire and enrich my growth as a student and researcher. I am indebted to him more than he knows. With profound pleasure, I express my deepest gratitude for his erudite guidance, timely suggestions, unflinching encouragement, fatherly love and critical remarks for the entire span of my work. His involvement and his originality has triggered and nourished my intellectual maturity that I will benefit from, for a long time to come. His perpetual energy and enthusiasm in research had motivated all his advices including me. In addition, he was always accessible and willing to help me with our research. He has been a pillar of strength and support without whom would not have been brought to completion.

I am indebted to constant inspiration from Mrs Vaishali N. Patel Joint Commissioner, Food and Drugs Laboratory Vadodara for granting me the facilities, encouragement and support for completion of my dissertation work.

I express my gratitude towards Dr. Manish J. Patel for giving me the important advices and valuable suggestions during my research work. Without his valuable support during my Ph.D. I could not imagine my self here.
