ACKNOWLEDGEMENT

The author owes a deep sense of gratitude to Dr. Abhijit Chakrabarti, Vice Chancellor, Jadavpur University for his valuable suggestions and inspiration at different phases of this work.

The author is highly indebted to Dr. Sunita Halder Nee Dey, Assistant Prof., Electrical Engg Dept., Jadavpur University, Kolkata for her invaluable help and guidance during this research work. Without her constant supervision, this research would not have seen the light of the day.

I am indebted to Prof. Nirmal Kumar Deb, Head, Department of Electrical Engineering, Jadavpur University, for his kind help during this project work. I would also like to convey my gratitude to Prof. Subrata Pal, in-Charge, Power System Laboratory of Department of Electrical Engineering, Jadavpur University for his valuable suggestions during the Project.

It is also a great privilege to the author to express his sincere thanks and deep gratitude to all staff of Electrical Engineering Department, Jadavpur University, Kolkata and the rich Library of the department for providing adequate facilities, excellent cooperation and support in carrying out the research work.

The author is also thankful to the Prof. P. K. Bose, Director, NIT Agartala, for his kind cooperation whenever required during the tenure of this research work.

It is also a pleasure for the author to thank all of his colleagues, friends and relatives who provided him a constant source of encouragement during his research work.
