ACKNOWLEDGEMENT

Finally, it is time- the time to put in ink all the efforts that have been employed into my project during these few years; and the time to express my warm gratitude and thanks to those all who have helped me make this day come real from a distant dream.

First of all, I must admit my endless indebtedness to that lamp-flame- my madam, Prof.(Mrs.) Snigáha Gangopadhyay and sir Prof.P.K.Gangopadhyay, who has shone so bright to guide me through all the turbulences and tranquil of my sail. This long journey of mine has been endowed with the unique confluence of their profound insight and yet practical approach, their brilliant ideas and yet simple experiments. I really feel fortunate enough to come into contact with them.

I am grateful for the invaluable co-operation from Prof. A. Chatterjee (ex-Principal, Presidency College, Kolkata), Dr. Mamata Roy (Principal, Presidency College, Kolkata), Prof. S. Ghosh (Head, Department of chemistry, Presidency College, Kolkata) and Dr.S.Ray(Director, IICB, Jadavpur). I would also thank the Department of Higher Education, Government of West Bengal for financial assistance.

My special thanks to all the members of teaching staff of Department of Chemistry, Presidency College, Kolkata for their continuous encouragement.

I am thankful for getting continuous support from Dr. Ramswarup Gangopadhyay, (Principal, Vidyasagar Evening College, Kolkata) and all the staffs of that college.
I must express my heartiest gratitude to Sikhadi and Tulikadi-who extended their helping hand whenever I needed it.

Sanjuktadi, Dolondi, Prodyut, Suparna, and all my research colleagues- I would cherish the fond memories of the wonderful moments I shared with you all and thank you once again for your active help.

All of my family members - you have been the inspirational pillar that I learned on so heavily throughout this voyage. Yours was a support I knew I could count on in the worst of times; mine was a gratification I knew you would appreciate at the best of times. You have borne with more than a smile all the hard times I have put you through, all my idiosyncrasies I came up with. Baba and Ma-you have urged me to fight for it. Poulami, my beloved wife - your suggestion and constructive criticism have helped me much to treat this way more easily. And today, on the threshold of its realization, mere words do fall short of acknowledging your contribution – I am grateful beyond what the most eloquent letters can convey.
