Acknowledgements

I take the opportunity to express my sincere gratitude to my supervisor Dr. A. K. Das, Ex-Joint Director & Divisional-in-charge, Lower Invertebrate Division, Zoological Survey of India for his constant guidance and help throughout the tenure of this work.

I am grateful to Dr. J. R. B. Alfred, Director, Zoological Survey of India, for giving me an opportunity to work in the Zoological Survey of India as Junior and Senior Research Scholar and providing necessary facilities in connection with the present work.

I wish to express my sincere thanks to Dr. A. K. Hazra, Joint Director, Zoological Survey of India, for his encouragement and generous help in taking the light microphotographs.

I am also thankful to Dr. N. C. Nandi, Joint Director, Soil Zoology Division, Zoological Survey of India, for his kind help and cooperation.

I am grateful to the Ministry of Environment and Forests, Government of India for granting me the junior and senior research fellowship during the tenure of my work.

I would like to thank Director, Botanical Survey of India for helping me in identifying all the dominant moss species of the collecting localities where from moss samples were collected and studied during the present work.

Thanks are also due to the Scientists of the Scanning Electron Microscopic Division, Geological Survey of India for their generous help in taking Scanning electron micrographs.

I would like to thank all the Scientists and staff members of the Protozoology and Soil Zoology sections, Zoological Survey of India, for their help during most of the work.

I express my sincere indebtedness to my parents for their encouragement, unstinted support and relentless help throughout my work.

Last but not least, I wish to extend my sincere appreciation and thankfulness to my husband, Mr. Jayanta Sinha, for his invaluable and encouraging support throughout the tenure of my work.
