5.1.2	Knowledge about facts of leprosy on the basis of ethnic/caste, religion and education.	73
5.1.3	Nature of knowledge on the basis of occupation and village	73
5.1.4	Knowledge about cause on the basis of ethnic/caste groups, religion and education.	74
5.1.5	Knowledge about cause on the basis of occupation and village.	75
5.1.6	Knowledge about treatment.	75
5.1.7	Knowledge about treatment on the basis of ethnic/caste, religion and education	76
5.1.8	Knowledge about treatment on the basis of occupation and village	76
5.1.9	Recognition of leprosy on the basis of ethnic/caste groups, religion and education	77
5.1.10	Recognition of leprosy on the basis of occupation and village	77
5.1.11	Attitudes towards leprosy patients regarding sharing	82
5.1.12	Attitudes towards leprosy patients regarding interaction.	82
5.1.13	Nature of practices with leprosy patients.	83
5.3.1	Knowledge about cause of disease	174
5.3.2	Perception on source of infection on the basis of age group, sex, education and occupation.	176
5.3.3	Perception on source of infection on the basis of caste, community and religion	177
5.3.4	Perception on source of infection on the basis of place, treatment status and deformity status.	178
5.3.5	Perception about the curability of the disease on the basis of age, sex, education and occupation.	180
5.3.6	Perception about the curability of the disease on the basis caste, community and religion.	181
5.3.7	Perception about the curability of the disease on the basis place, treatment and deformity status.	182

5.3.8	State of family relationship on the basis of age group, sex, education and occupation.	188
5.3.9	State of family relationship on the basis of caste, community and religion.	189
5.3.10	State of family relationship on the basis of marital status, family status and economic status.	190
5.3.11	State of family relationship on the basis of place, treatment status and deformity status.	191
5.3.12	State of social relationship on the basis of age group, sex, education and occupation.	193
5.3.13	State of social relationship on the basis of caste, community and religion.	194
5.3.14	State of social relationship on the basis of marital status, family status and economic status.	195
5.3.15	State of social relationship on the basis of place, geography, treatment and deformity status.	196
5.3.16	Decreased Status on the basis of age group, sex, education and occupation.	198
5.3.17	Decreased Status on the basis of caste, community and religion.	199
5.3.18	Decreased Status on the basis of marital status, family status and economic status.	200
5.3.19	Decreased Status on the basis of place, residence, treatment status and deformity status.	201
5.3.20	Problems in rituals due to leprosy.	203
5.3.21	Problems in rituals on the basis of sex, education and occupation.	203
5.3.22	Problems in rituals on the basis of place, treatment status and deformity status.	204
5.3.23	Economic and occupational problems due to leprosy.	205
5.3.24	Economic problems on the basis of sex, education, community, treatment and deformity status.	206
5.3.25	Occupational problems on the basis of sex, education, community, treatment and deformity status.	207
5.3.26	Duration of seeking medical treatment after the onset of disease.	209
5.3.27	Reasons given for delayed treatment.	209
5.3.28	Frequency of level of debilitation.	211
5.3.29	Dehabilitation in family relationship on the basis of age group, sex, education and occupation.	212
5.3.30	Dehabilitation in family relationship on the basis of caste, community and religion.	213
5.3.31	Dehabilitation in family relationship on the basis of marital status, family and economic status.	214
5.3.32	Dehabilitation in family relationship on the basis of place, residence, treatment and deformity status.	215
5.3.33	Dehabilitation in social interaction on the basis of age group, sex, education and occupation.	216

5.3.34	Dehabilitation in social interaction on the basis of caste, community and religion.	217
5.3.35	Dehabilitation in social interaction on the basis of marital status, family and economic status.	218
5.3.36	Dehabilitation in social interaction on the basis of place, residence, treatment and deformity status.....	219
5.3.37	Dehabilitation in vocational condition on the basis of age group, sex, education and occupation. .	221
5.3.38	Dehabilitation in vocation on the basis of caste, community and religion.	222
5.3.39	Dehabilitation in vocation on the basis of marital status, family status and economic status.	223
5.3.40	Dehabilitation in vocation on the basis of place, residence, treatment and deformity status.....	224
5.3.41	Dehabilitation in Self-esteem on the basis of age group, sex, education and occupation.	226
5.3.42	Dehabilitation in Self-esteem on the basis of caste, community and religion.	227
5.3.43	Dehabilitation in Self-esteem on the basis of marital status, family status and economic status.....	228
5.3.44	Dehabilitation in Self-esteem on the basis of place, residence, treatment and deformity status.....	229
5.3.45	Total level of Dehabilitation on the basis of age group, sex, education and occupation.....	231
5.3.46	Total level of Dehabilitation on the basis of caste, community and religion.	232
5.3.47	Total level of Dehabilitation on the basis of marital status, family status and economic status.	233
5.3.48	Total level of Dehabilitation on the basis of place, residence, treatment and deformity status.	234
