ACKNOWLEDGMENTS

The investigator is deeply indebted to his guide Prof. K.S. Gupta, M.A., B.T., M.A.(Edinburgh), Director, Institute of Educational Research and Studies, Calcutta and retired Head of the Department of Education, Calcutta University, for his encouragement, valuable advice, unfailing guidance, guardian-like affection and inspiration at every stage of the work. In fact, this study would not have been possible without his inspiring advice and valuable guidance at every step.

The investigator is extremely grateful to his revered senior colleague Dr. A.K. Biswas M.Sc., B.T., Ph.D. for his help and valuable suggestions in every possible way from the beginning to the end of the work.

He is also grateful to Dr. Durgadas Bhattacharyya, M.Sc., B.T., Ph.D., Professor, Department of Education, Kalyani University, West Bengal, who took keen interest in the Programme and progress of the work. His constant encouragement helped the investigator a great deal in completing this much-needed scholastic achievement test and in the analysis of the relevant achievement data which will suggest guide-lines to the teachers and the students (Class-IX) of Madhyamik schools in West Bengal. He also expresses his gratitude to Dr. Bhattacharyya for his
sagacious suggestion in connection with the administration of (i) 'General Intelligence Test' and (ii) 'Academic Motivation Test', both developed and standardised by Dr. Bhattacharyya, to collect relevant data for this investigation.

He will be failing in his duty if he does not acknowledge the pains taken by the experts (Teacher-educators, Teachers and Psychometricians), in helping him development of the 'Achievement Test in General Physics' as well as analysis of the relevant achievement data.

The investigator remembers with compliments and gratitude his revered well-wishers, Swami Ramananda Maharaj, Secretary, Ramakrishna Mission Boys' Home Brahmananda P.G.B.T. College and Sri P.K. Chatterjee, Principal of his college and all other colleagues whose constant inspiration gave him undaunted spirit to carry out this investigatory work to the cherished end.

He gratefully mentions the help given by his senior colleague, Sri N.B. Basu Majumder and his ex-student, Sri Priyabrata Pal who extended their help in drawing various diagrams of the 'Tests' developed and administered in this work.

The investigator expresses his heartfelt gratitude to his beloved friend, Sri Priyadarshan Tewari, Headmaster, Akra Saktigarh Rabindra Bidyapith for his encouragement in the prosecution of this work to achieve success.
The investigator takes the opportunity of acknowledging his sincere thanks and gratitude to the various authors whose works he freely consulted in connection with his investigation. Their works have been made use of in the text and cited in the bibliography.

The investigator thanks the Heads of all the secondary schools for the assistance rendered during the administration of the 'Tests' in their respective schools. But for their active co-operation the investigator could not have successfully completed this work. He also thanks the members of the staff of those schools who helped him in administering the 'Tests'.

The investigator must also gratefully acknowledge the help extended to him by the authorities of the following libraries: (a) Calcutta University Library; (b) Kalyani University Library; (c) National Library; (d) U.S.I.S. Library; (e) British Council Library; (f) Indian Statistical Institute Library; (g) R.K. Mission P.G.B.T. College Library.

Heartfelt thanks are also due to Sri Amiya Kumar Santra, University of Kalyani for typing out the manuscript.
