PUBLICATIONS

✓ Manveen K Gupta, Neelakantan TV, Rakesh K Tyagi, Chinmay K Mukhopadhyay and Shyamal K Goswami. Apoptotic and hypertrophic events induced by Norepinephrine in H9c2 myoblasts is not attributable to the net reactive oxygen species generation but to distinct downstream signaling. (In revision) *Antioxidant and Redox Signaling.*

✓ Manveen K Gupta and Shyamal K Goswami. Apoptotic dose of norepinephrine increases nuclear localized FKHR and modulates its phosphorylation status while in conjunction with insulin it expedites nuclear exclusion of FKHR without prevention of cell death. *Manuscript In preparation.*
