ACKNOWLEDGEMENT

I express my deepest sense of gratitude to my respected teacher, Prof. S. Sen, Genetics and Plant Breeding Department, Faculty of Agriculture, Bidhan Chandra Krishi Viswavidyalaya for his learned counsel, affectionate guidance, sustained interest and constant encouragement during the course of this investigation as well as in preparation of the manuscript.

I am thankful to the Head of Genetics and Plant Breeding Department, Faculty of Agriculture, Bidhan Chandra Krishi Viswavidyalaya for his kind interest as well as for providing all sorts of laboratory, library and data collection facilities during the tenure of this work.

I also extend my gratefulness to the Head, University College of Agriculture, University of Calcutta for his active co-operation and in ready provision of library facility during the period of this investigation.

Sincere thanks are extended to Prof. S.P. Banerjee and Dr. M.K. Majumder of University of Calcutta for their valuable support, advice and useful criticisms during the course of this study.

I wish to put on record my appreciation and thanks to Dr. Satyabrata Maiti for allowing provision for estimation of oil content of the research material at the Oilseeds Research Institute, Hyderabad.

I acknowledge with appreciation the generous help of my colleagues and research associates during the various phases of this investigation. At the same time, I express my thanks to the members of the field at 'D' Block Farm, Bidhan Chandra Krishi Viswavidyalaya for their ungrudging help all through the study period.
I am very much indebted to Hindustan Lever Research Foundation for providing financial assistance in the form of Junior Research Fellowship.

I shall be failing in my duty, if I do not make a mention about the inspiration I have constantly received from my parents as well as the exemplary patience and understanding shown by them during the entire period of my work.
