Acknowledgement

This is the appropriate time to express my thanks to all of them who extended their unconditional support as well as guidance and assistance during my long period of research work.

First of all I would like to express my sincere gratitude to my supervisor Dr. Achintya Saha, Associate Professor Department of Chemical Technology, University of Calcutta who introduced me in the area of chemometric drug development research. He has vast knowledge of chemistry, pharmacy, mathematics, biostatistics and computer science. I gain lot of moral support which helped me to realize the integrity, courage, fortitude, honesty and loyalty, or of good behavior or habits. I am also grateful to my co-supervisor, Prof. Arup Mukherjee, Department of Chemical Technology, University of Calcutta for his continuous support, encouragement and motivation. The training which I achieved under their supervision will definitely lead me to overcome any kind of situation and make me to build my golden carrier.

It also gives me pleasure to thank Dr. Sriparna Datta, Associate Professor, Department of Chemical Technology, University of Calcutta for her kind cooperation at different junctures in the full tenure of the project.

I am indebted to the Vice-Chancellor, University of Calcutta and Head of the Department of Chemical Technology, University of Calcutta and members of Ph.D. committee of Pharmaceutical and Fine Chemicals Technology, University of Calcutta for benevolent assistance throughout the project.

It gives me privilege to acknowledge Dr. Shuchi Nagar, Assistant Professor, D.Y. Patil University, Pune for her support in many areas of this project.

I would especially like to thank to Ria Pal, Suvadra Das, Partha Roy and Tabassum Hossain, Research Scholars, University of Calcutta for their invaluable guidance and cooperation extended during my project work. Without their active cooperation and guidance it was not possible to complete my project.

It would be improper if I do not extend sincere gratitude to Amit Haider, Research Scholar, Department of Pharmaceutical Technology, Jadavpur University for his valuable help in database screening.

I am thankful to the Council of Scientific and Industrial Research (CSIR), New Delhi for providing Senior Research Fellowship for continuation of this project. I express gratitude to our University online journal facilities and bibliographic support from the departmental library.

I express my most grateful appreciation to my parents, my wife, my elder brother, my sisters and sister-in-law who have done everything possible to help me to reach this place and I feel short of words to pay thanks to them. They have always helped me to keep me focused towards my goal. They are my source of inspiration. My father-in-law and mother-in-law are also greatly acknowledged for their constant support. I am especially indebted to my paternal grandparents who are no more here today and maternal grandparents for their support and blessings.

I leave here a special note of gratitude for all others who might have also contributed in some way or the other, but whose names have been missed out on account of my mistake.
