MEDICAL MISSION FOR CHINA
Rashtrapati Subhas Bose’s Message
CALCUTTA CITIZENS’ SEND-OFF TO BENGALI DOCTORS

On the eve of their departure for Bangkok, Dr. Haripada N. Sen and Dr. Debashish Mukherjee, who are joining the Medical Mission that is being sent to China by the Indian National Congress, were accorded a hearty send-off at a public meeting held on Sunday at the Calcutta University Institute, College Square.

St. Subhas Chandra Bose, who presided, said that although India might be entertained regarding the utility of the mission, it could not be gainsaid that the nation had a moral value. The two surgeons who were going to China were ambassadors who would convey the sympathy of Indians with the Chinese in their hour of trial. The mission would raise India in the estimation of both eastern and western nations.

Dr. Sen and Dr. Mukherjee left for Bangkok on Sunday morning. They would be joined for China, from Bangkok, the next day. It is expected that the whole journey will be completed by the end of the month.

Subhas Chandra Bose, in his message, said that the Indian National Congress was preparing to meet the challenge of the present situation. He said that the mission would carry India’s message to the Chinese public and help them understand the Indian point of view.

Subhas Chandra Bose, who was present, expressed his confidence in the success of the mission. He said that the Indian National Congress would continue to support the mission and work for establishing friendly relations between the two nations.

The mission was accorded a hearty send-off, and everyone表达了 their support and wishes for the success of the mission.

A genuine anti-imperialist is one who believes in undiluted heritance (not Mahatma Gandhi's substance of independence) as the political objective and an uncomforming national struggle as the means for attaining it. After the attainment of political independence, lifitent will mean Socialism and the task before the people will then be the reconstruction of national life on a Socialistic basis.
