Acknowledgement

Incorporated in this thesis are the results of an investigation carried out in the laboratories of the Department of Medical Entomology, School of Tropical Medicine, Calcutta and under supervision of Prof. Neelam Tandon in the Department of Medical Entomology, School of Tropical Medicine, Kolkata. The results incorporated in the thesis contained a lot of original as well as interesting information. Some of the parameters selected for assessment of the present scenario in malaria prevailing in Calcutta had not been taken into account by earlier investigators in this area. Therefore in this context also, the thesis can claim some originality.

I am greatly indebted and pay my sincere most gratitude to Dr. Neelam Tandon, Professor & Head, Department of Medical Entomology, Calcutta School of Tropical Medicine for her constant guidance, supervision, encouragements, critical reading of the manuscript and valuable suggestions for preparation of the thesis.

The author expresses his deep sense of gratitude to Prof. Buddhadev Manna, M.Sc., Ph.D., Professor of Zoology, Department of Zoology, University of Calcutta, for suggesting the problem, valuable guidance, constructive criticism and advice throughout the study period.

I express my deep sense of gratitude and respect to Dr. S.K. Tandon, Ex-Joint Director, Zoological Survey of India for constant encouragement and valuable suggestion.

I would like to express my gratitude and respect to Dr. Samir Banerjee, Professor and Head of the Department, Calcutta University and Dr. Gautam Saha, Lecturer, Department of Zoology, Calcutta University, Prof. R.N. Chatterjee, Prof. Shanti Gopal Paul and Prof. D. Roychoudhury, Dr. Urmi Chatterjee, Dr. N.C. Dutta, Dr. Amal Bhattacharya.

Heartiest thanks are also due to Dr. Amitava Majumdar, Sanitary Engineering Department, All India Institute of Hygiene and Public Health who helped us for chemical analysis of water. The author is also grateful to Dr. Sudipto Sengupta, Reader, Department of Statistics, Calcutta University for analysing the data statistically.
I would also like to express my gratitude to Professor A.K. Hati, Ex-Director, Calcutta School of Tropical Medicine, Kolkata, Dr. A. Thimmayya, Ex-Head, Department of Mycology, School of Tropical Medicine, Dr. Hironmoy Mukherjee, Head, Department of Medical Entomology, School of Tropical Medicine, Kolkata, Dr. P.K. Sarkar, Ex-Director, School of Tropical Medicine, Dr. S.K. Chakraborty, Department of Virology, School of Tropical Medicine.

I am also grateful to Sri Uttam Halder, and Sri Manas Pal for their technical assistance for time to time.

Thanks are also due to Mr. Sumukar Das, Mr. Gurudas Banerjee, Mrs. Kaberi Chatterjee, Mrs. Anu Bose Choudhuri, Mr. Amal Chakraborty (insect collector).

Sincere co-operation of some colleagues namely Basab Basak, Dr. Atanu Banerjee, Dr. Kajal Kr. Chatterjee, Mrs Sanjukta Manna, Mrs. Mukul Sarkar, Mrs. Tanima Chatterjee, Mr. Umashankar Paul, Bireswar Bera and my two daughters Shinjinee and Malini Chakraborty are acknowledge with appreciation.

It is felt as a pleasant duty to express heartfelt thanks to the Department of Science & Technology, Government of West Bengal, for providing the financial support for this kind of venture.

Last but not the least I express my deep sense of gratitude and warm rewards to my mother Mrs. Shephali Ghosh, my brother Mr. Kabi Ghosh and my husband Dr. Debashis Chakraborty for their patience, inspiration and moral support in every walk of life.
