ACKNOWLEDGEMENTS

The author takes pleasure in expressing his deep sense of gratitude and appreciation to Prof. Santi R. Palit, D.Sc., E.R.I.C., F.N.I., Head of the Department of Physical Chemistry, Indian Association for the Cultivation of Science, Jadavpur, Calcutta-32 for his keen interest, valuable guidance and constant encouragement during the course of the present investigation.

Sincerest thanks are due to Dr. S.R. Chatterjee, M.Sc., D.Phil., Defence Science Laboratory, Delhi, who introduced the author to the field of Polymer Science and under whose guidance the author undertook the first phase of this investigation.

Of the numerous people, including colleagues who have aided, the author likes to thank in particular Dr. B.K. Mandal and Mr. G. Ray for stimulating discussions, Mr. K.K. Roy and Mr. A.S. Ghose for going through the manuscript, Mr. N. Roy for experimental assistance and Mr. Amaresh Lala for typing the thesis with extreme care.

Finally, the permission accorded by the members of the Council and the Director, Indian Association for the Cultivation of Science, Jadavpur, Calcutta-32 to the author for carrying out this investigation in the Association, placing all laboratory and library facilities at his disposal and the financial support
offered by the Council of Scientific and Industrial Research in the form of a Senior Research Fellowship are gratefully acknowledged.

Department of Physical Chemistry,Indian Association for the Cultivation of Science, Jadavpur, Calcutta-32, INDIA.
