Chapter 1: Introduction

1.1 Vegetables market and its position in India
1.2 Supply Chain Management
1.3 Components of Supply Chain Management
   1.3.1 Production
   1.3.2 Inventory
   1.3.3 Distribution/Logistic
   1.3.4 Payments
1.4 Concept of Vegetable Supply Chain
1.5 Some Major Activities of the Vegetable Supply Chain
   1.5.1 Purchasing
   1.5.2 Quality Control
   1.5.3 Demand and Supply Planning
   1.5.4 Material and Overview Control
   1.5.5 Order Processing
   1.5.6 Production Planning, Scheduling and Control
   1.5.7 Warehousing / Distribution
   1.5.8 Customer services
1.6 Market Channels
   1.6.1 Meaning
1.7 Channels for Vegetables
1.8 Important Advantages of Supply Chain Management in Vegetables Marketing
1.9 Importance of the Study
1.10 About the study

**Chapter 2: Review of Literature**

2.1 Growth rate and trends in the area, production and productivity.
2.2 Marketing system and work out the price spread.
2.3 Production and marketed surplus
2.4 Role of intermediaries and supply chain

**Chapter 3: Methodology**

3.1 Need for Study
3.2 Objectives of Study
3.3 Study of the Area
3.4 Research Method
   3.4.1 Database
      3.4.1.1 Secondary Data
      3.4.1.2 Primary Data
3.5 Research tool
   2.5.1 Schedule
   2.5.2 Questionnaire
   3.5.3 Interview
3.6 Data Collection
   3.6.1 Primary Data
   3.6.2 Secondary Data
3.7 Statistical / Economics Tools
   3.7.1 Growth Rate
   3.7.2 Estimating Marketing Efficiency and price spread
      3.7.2.1 Percentage Margins of produce’s Price
      3.7.2.2 Marketing Efficiency
      3.7.2.3 Marketing Cost
      3.7.2.4 Producer Share in Consumer Rupee
   3.7.3 Yearly Index of Arrival
3.7.4 Marketed Surplus and Market Arrival

Chapter 4: Profile of the Study Area

4.1 Background of Uttar Pradesh
4.2 Bundelkhand – General Information
4.3 Jhansi Division
4.4 Physical Features
   4.4.1 Topography
   4.4.2 The Soil
   4.4.3 Soil Group
   4.4.4 Climate
   4.4.5 Temperature
   4.4.6 Rainfall
4.5 Geology
4.6 Minerals
4.6 Rivers
4.7 Irrigation Situation in Division
4.8 Agriculture

Chapter 5: Survey Profile of the Informants

5.1 Area Wise Classification of Marginal, Small and Large Vegetables Growers of Selected Regions.
5.2 Education wise Classification
5.3 Classification of Number of Family Members
5.4 Caste Wise Classification
5.6 Total and Agriculture Land Classification
5.7 Classification of Production of Different Vegetables
5.8 Selling Quantity of Vegetables
5.9 Cost of Production of Different Vegetables
5.10 Cost of Marketing of Different Vegetables
5.11 Total Production of Food Grain Crop
5.12 Cultivated Area of Different Food Grain Crop
5.13 Selling Quantity of Different Food Grain Crop
5.14 Cost of Production of Food Grain
5.15 Cost of Marketing of Food Grain

Chapter 6: Result and Discussion

6.1 Area, Production and Productivity of Selected Vegetables
   6.1.1 Status, Trend and Growth Rate Position of Area, Production and Productivity of Selected Region.
   6.1.2 The Annual Growth Rates (AGR) of Vegetable of Selected Region

6.2 Price Spread of Selected Vegetables
   6.2.1 PerQuintal Price Spread and Return of Selected Vegetable obtained through Different Marketing Channels.
   6.2.2 Price Spread of all Selected Vegetables for all Selected Area

6.3 Production, Marketed Surplus and Market Arrival of Selected Vegetables
   6.3.1 Total Production, Marketed Surplus and Retention of Vegetables in Different channels in Selected Block.
   6.3.2 Pattern of Arrival of Vegetables in Selected Regions

6.4 Role of Intemediaries in Vegetables Marketing
   6.4.1 Marketed surplus of tomato, Brinjal, Potato, Onion, Okra, Bottle Gourd, Torai and Cauliflower with the help of middle men

Chapter 7: Conclusions, Problems and Suggestions

Bibliography
Annex 1: Questionnaire
List of published papers during PhD
List of attended seminars / conferences during PhD
