

LIST OF TABLES

S. No	Title	Page No.
5.1	Distribution of respondents based on their age	104
5.22	Gender wise distribution of respondents based on their regional background	105
5.3	Faculty wise distribution of respondents based on their region	106
5.4	Status wise distribution of respondents based on their region	107
5.5	Gender wise distribution of respondents' dependency on their University Library	109
5.6	Faculty wise distribution of respondents' dependency on University Library	113
5.7	Status wise distribution of respondents' dependency on University Library	116
5.8	Gender wise distribution of respondents' capability in using levels of computer	119
5.9	Faculty wise distribution of respondents' capability in using levels of computer	122
5.10	Status wise distribution of respondents' capability in using levels of computer	124
5.11	Gender wise distribution of respondent's information required of E - services provided by their university library	129
5.12	Faculty wise distribution of respondent's information required of E - services provided by their university library	138
5.13	Status wise distribution of respondent's information required of E - services provided by their university library	141
5.14	Gender wise respondents preferred web browsers	150

S. No	Title	Page No.
5.15	Faculty wise distribution of respondent's use of browser	156
5.16	Status wise distribution of respondent's use of browser	163
5.17	Gender wise preferred usage of search engines	169
5.18	Faculty wise preferred usage of search engines	175
5.19	Status wise preferred usage of search engines	180
5.20	Analysis of gender wise features for used of search engine	185
5.21	Analysis of faculty wise features for used of search engine	189
5.22	Status wise features for used of search engine	194
5.23	Gender wise distribution of Frequency of accessing Library	199
5.24	Faculty wise distribution of Frequency of accessing Library	204
5.25	Status wise distribution of Frequency of accessing Library	207
5.26	Gender wise places of accessing internet connectivity	213
5.27	Faculty wise places of accessing internet connectivity	217
5.28	Status wise places of accessing internet connectivity	223
5.29	Gender wise analysis of reasons for accessing E- resources	231
5.30	Faculty wise analysis of reasons for accessing E- resources	237
5.31	Status wise analysis of reasons for accessing E- resources	242
5.32	Gender wise analysis of purposes of accessing E- resources	251
5.33	Faculty wise analysis of purposes of accessing E- resources	258
5.34	Status wise analysis of purposes of accessing E- resources	266
5.35	Gender wise supporting manners while accessing Electronic resources	271

S. No	Title	Page No.
5.36	Faculty wise supporting manners while accessing Electronic resources	274
5.37	Status wise supporting manners while accessing Electronic resources	280
5.38	Gender wise Experience of ICT skills in accessing e resources	283
5.39	Faculty wise Experience of ICT skills in accessing e resources	286
5.40	Faculty wise Experience of ICT skills in accessing e resources	290
5.41	Methods adopted for acquiring IT skills for searching electronic resources by the selected respondents	292
5.42	Gender wise analysis of methods adopted for acquiring IT skills for acquiring e resources	294
5.43	Faculty wise analysis of methods adopted for acquiring It skills for acquiring e resources	297
5.44	Status wise analysis of methods adopted for acquiring It skills for acquiring e resources	301
5.45	Analysis of preferred download file formats by respondents	305
5.46	Gender wise analysis of preferred download file formats by respondents	307
5.47	Faculty wise analysis of preferred download file formats by respondents	311
5.48	Status wise analysis of preferred download file formats by respondents	314
5.49	Analysis of preferred storage devices for preservation by respondents	318
5.50	Gender wise analysis preferred storage devices for preservation by respondents	319
5.51	Faculty wise analysis of preferred storage devices for preservation by respondents	321
5.52	Status wise analysis preferred storage devices for preservation by respondents	325
5.53	Influences of electronic resources on academic efficiency	327
5.54	Gender wise analysis of influence of Electronic Resources on academic libraries	329
5.55	Faculty wise analysis of influence of Electronic Resources on academic libraries	332
5.56	Status wise analysis of influence of Electronic Resources on academic libraries	336
