</table>
4.3 Cross-correlations between the Sensex and World Indices Returns (Jan 2001 - Dec 2005) 79
4.4 Cross-correlations between the Sensex and World Indices Returns (Jan 2006 - June 2010) 80
4.5 SENSEX and HSI Descriptive Statistics 91
4.6 Test Results for Stationarity of SENSEX and HSI Return Series 94
4.7 Diagnostics for Serial Correlations of Squared Residuals (Sensex) 96
4.8 Dates of General Elections (from November 1995 to June 2010) 97
4.9 A Comparison of Pre and Post-Election Day Returns and Return Variances with Non-Election Day Return and Variance (on Sensex) 101
4.10 Estimated Results of Equation (2) for General Elections 103
4.11 Estimated Results of Equations (3) and (4) for General Elections 106
4.12 Estimated Results of Equations (5) and (6) for General Elections 113
4.13 Estimated Results of Equation (7) 116
4.14 Estimated Results of Equation (8) 117
4.15 Union Budget Dates (from November 1995 to June 2010) 119
4.16 A Comparison of Pre and Post-Budget Day Returns and Return Variances with Non-Budget Day Return and Variance (on Sensex) 120
4.17 Estimated Results of Equation (2) for Union Budgets 124
4.18 Estimated Results of Equations (3) and (4) for Union Budgets 126
4.19 Estimated Results of Equations (9) and (10) for Union Budgets 131
5.1 Distribution of Select Events by Weekdays and by Months 136
5.2 A Comparison of Favourable and Unfavourable Post Event Returns and Return Variances with Non-Event Day Return and Variance (Sensex) 139
5.3 Estimated Results of Equation (11) for Sensex 143
5.4 Estimated Results of Equations (12) and (13) for Sensex 145
5.5 Estimated Results of Equations (12) and (13) for Extreme Reactions on Sensex 149
5.6 Descriptive Statistics of High and Low-beta Portfolios (November 1995 to June 2010) 153
5.7 Diagnostics for Serial Correlations of Squared Residuals (High-beta and Low-beta Portfolios) 154
5.8 Test Results for Stationarity of High-beta and Low-beta Portfolio Return Series 154
5.9 Estimated Results of Equations (12) and (13) for High-Beta Portfolio 157
5.10 Estimated Results of Equations (12) and (13) for Low-Beta Portfolio 158
5.11 Descriptive Statistics of Industry-wise Portfolio Return Series 161
5.12 Industry-wise Diagnostics for Serial Correlations of Squared Residuals 163
5.13 Test Results for Stationarity of Industry-wise Return Series 163
5.14 Final Specifications for Industry-wise Mean and Variance Equations under Model I and Model II 167
5.15 Estimated Results of Equations (12) and (13) for Automobile Portfolio 168
5.16 Estimated Results of Equations (12) and (13) for Banking Portfolio 169
5.17 Estimated Results of Equations (12) and (13) for Capital Goods Portfolio 170
5.18 Estimated Results of Equations (12) and (13) for Cement Portfolio 171
5.19 Estimated Results of Equations (12) and (13) for Energy Portfolio 172
5.20 Estimated Results of Equations (12) and (13) for FMCG Portfolio 173
5.21 Estimated Results of Equations (12) and (13) for IT Portfolio 174
5.22 Estimated Results of Equations (12) and (13) for Metal Portfolio 175
5.23 Estimated Results of Equations (12) and (13) for Pharma Portfolio 176
5.24 Estimated Results of Equations (12) and (13) for Textile Portfolio 177
5.25 Industry-wise Summary Results: Model I (For All Select Events) 185
5.26 Industry-wise Summary Results: Model II (For Select Extreme Events) 186
5.27 Industry-wise Diagnostic Statistics: Model I (For All Select Events) 187
5.28 Industry-wise Diagnostic Statistics: Model II (For Select Extreme Events) 188
5.29 Average FII-holding in the Portfolio Companies 192
5.30 Descriptive Statistics: High and Low-FII Portfolio Returns
5.31 Diagnostics for Serial Correlations of Squared Residuals (High-FII and Low-FII Portfolios)
5.32 Tests Results for Stationarity of High-FII and Low-FII Portfolio Return Series
5.33 Estimated Results of Equations (12) and (13) for High-FII Portfolio
5.34 Estimated Results of Equations (12) and (13) for Low-FII Portfolio
