At this act of passing through the process, words fail my pen to acknowledge those exceptional and excellent personalities, who have made a vital contribution in completing this thesis work. Few words can hardly do justice, and even the most decorative and smoothly flowing words fail my shy to express the deepest sense of indebtedness and heartfelt gratitude to all involved with me mentally and physically.

At the very onset, I feel unfathomable to express my deepest sense of respect and gratitude to my supervisor Prof. R.K. Sarkar, Khaira Professor, Department of Agronomy, Institute of Agricultural Science, for his incessant advice, constructive suggestions, inexhaustible encouragement, prudent and relentless guidance, helpful criticism and all sorts of cooperation since inception and till completion of this research pursuit.

Mere words can never suffice to express the sense of my indebtedness and heartfelt gratitude to Dr. Paritosh Bhattacharyya, Additional Director of Agriculture, Govt. of West Bengal, as well as my joint supervisor for unstinted help, ceaseless and sagacious guidance, sustained interest, inexhaustible encouragement and invaluable suggestions throughout the course of this investigation. His close monitoring and encouragement made the work complete with perfection.

I express my regards and gratitude to the American scientist (Cornell university) Professor Peter Hobbs for his intellectual criticism, invaluable suggestions and counsels during his visit of the experimental field inspite of his tight schedule in India.

I also wish to express my unsfading sense of gratitude to Dr. Ramblas Mollick, Head of the Department, Department of Agronomy and Dr. Nilanjan Deb, Convenor, Ph.D. committee and Dr. (Mrs) Anita Saha, Plant Physiologist for their valuable suggestions and kind administrative and technical help extended to me.

With profound and unsfading sense of gratitude, I wish to extend my immense thanks and heartfelt regards to Sri Sampad Ranjan Patra, Project Officer and Ex-Officio Joint Director Of Agricultural, Water Management Research Station, Ranaghat, Nadia for his inspiration, valuable suggestions, constant help and tireless support and for providing all sorts of facilities during the course of investigation.
I am also to offer my solemn and devoted thanks to Prof. Anurup Majumder, Department of Agricultural Statistics, BCKV, Mohanpur, Nadia for his valuable suggestions and help to conduct statistical analysis for this thesis.

I also wish to thank Dr. Manik Chandra Kundu Assistant Agricultural Chemist, W.B.A.S. (Res.) Water Management Research Station, Ranaghat, Nadia to help me in analyzing my samples inspite of his busy schedule and heavy work load.

I owe my special thanks to Dr. Manabendra Roy, Associate Professor, Department of Agronomy, Faculty of Agriculture, Bidhan Chandra Krishin Vizwavidyalaya, for his generous help as well as kind valuable advice whenever required.

I cannot find any words to express my regards to my maa and baba, father in law and mother in law for their Blessings, inspiration, ineffable love and cordial affection for which I would forever be indebted to them and pray for their wellbeing.

I express my sincere thanks to all the teachers and non-teaching staffs, Department of Agronomy, Institute of Agricultural Science, University of Calcutta, West Bengal for their helpful advice and effective cooperation during my course of investigation.

I owe my special thanks to Amitava da, Sudhi da, Subir da, Purnima di, Samir, Sudip, Anish, Satyajit, Dipak, Sejoy and Sudeshna for their abysmal support and enthusiastic inspiration throughout the course of study.

I feel my profound passion for my beloved wife Arpita and my little Tithi (daughter) whose inspiration, encouragement, sacrifice and good wishes, love and affection inspired me at every walk of my life.

I am indebted to so many persons that a complete acknowledgement would be an encyclopedia. However, it would be injustice if I do not mention their help and encouragement regarding this dissertation work.

The 20th June, 2012
Kalyani, West Bengal
