ACKNOWLEDGMENTS

First and foremost I bow in reverence to almighty who bestowed me the power, encouragement and will to meet the ups and downs of life.

I would like to thank my supervisor Dr. Pooja Chadha for her unlimited support, valuable criticism, endless and forever patience and sagacious guidance. Her constructive instructions, worthy suggestions and heartfelt support ensured the progress of the thesis.

I owe my sincerest regards to Dr. Arvinder Kaur, Head, department of Zoology, Guru Nanak Dev University, Amritsar, for providing me the necessary facilities needed to complete this work. I offer my sincere thanks to Dr. Satwinder Kaur, Dr. Anish Dua, Dr. Sanehdeep Kaur and Dr. Puja Ohri for their encouragement and support throughout the work. I would like to extend my gratitude to Dr. Manoj Kumar Borah (Khalsa College of Veterinary and Animal Sciences) for his contribution during laboratory analysis.

I am thankful to the lab assistant and non teaching staff of the department of Zoology, Guru Nanak Dev University, Amritsar, for their wholehearted support and cooperation. I am also thankful to my labmates (Sandeep Kaur, Shelly Sharma, Prince and Mandeep Kaur) for their support during this work.

The financial assistance from DST-Purse and UPE is gratefully acknowledged.

Finally, my greatest gratitude goes to my parents and brother for their never ending love, affection, motivation and moral support. I warmly thank my mother in law for her priceless help and support during the course of Ph. D. It gives me immense pleasure to acknowledge my husband and son Aryan whose wishes, love, support and encouragement gave me strength to complete this study.

This thesis would not have been possible to complete without the kind support and help from all the people around me. I would like to express my endless gratitude to all of those who in different ways supported me during all these years.

Madhu Sharma
