

LIST OF TABLES

Table No.	Contents	In between Pages
1	Established Soil Series Association Level and Soil Mapping Units (1:50,000) of <i>Upper Kasai</i> Watershed, Puruliya, West Bengal.	27-28
2	Dominated Soil Series, Respective Soil Mapping Units and Parameters within Critical limits (Bold & Underlined parameters are critical)	28-29
3	Limitations Identified in <i>Upper Kasai</i> Watershed, Puruliya, West Bengal.	28-29
4	Identified Priority Classes in <i>Upper Kasai</i> Watershed, Puruliya, West Bengal.	28-29
5	Climatic Database of <i>Patloi Nala</i> Micro-Watershed, Block Hura, Puruliya, West Bengal.	42-43
6 a	Demographic Profile of <i>Patloi Nala</i> Micro-Watershed	43-44
6.b	Facilities Present in <i>Patloi-Nala</i> Micro-Watershed	43-44
7	Established Soil Mapping Units and its Spatial Distribution for <i>Patloi-Nala</i> Micro-Watershed	45-46
8	Brief Introduction of the Legends for the Construction of Soil Mapping Unit (For Detailed Survey)	46-47
9	Landform and Soil Site Characteristics of <i>Patloi Nala</i> Micro-Watershed	48-49
10	Morphological Properties of the Soils of <i>Patloi Nala</i> Micro-Watershed	50-51
11 a	Physico-Chemical Properties of the Identified Soil Series of <i>Patloi Nala</i> Micro-Watershed: UPLAND	51-52
11 b	Physico-Chemical Properties of the Identified Soil Series of <i>Patloi Nala</i> Micro-Watershed: MEDIUM LAND AND MEDIUM LOW LAND	51-52
11 c	Physico-Chemical Properties of the Identified Soil Series of <i>Patloi Nala</i> Micro-Watershed: LOW LAND	51-52
12	Different Forms of Soil Acidity observed In <i>Patloi Nala</i> Micro-Watershed	53-54
13	Available Macro Nutrients of <i>Patloi Nala</i> Micro-Watershed	54-55
14	Status of DTPA Extractable Micronutrient Cations (mg kg^{-1}) in <i>Patloi Nala</i> Micro-Watershed	56-57
15	Physical Properties of the Soils of <i>Patloi Nala</i> Micro-Watershed	57-58
16	Soil Moisture Characteristic of <i>Patloi Nala</i> Micro-Watershed	57-58
17	Some Typical Moisture Retention Properties of <i>Patloi Nala</i> Micro-Watershed	59-60
18	Erosion Assessment of Surface Soils of <i>Patloi Nala</i> Micro-Watershed by USLE	59-60
19	Total Analysis of Macronutrients of <i>Patloi Nala</i> Micro-Watershed	60-61
20	Total Oxide Analysis of the Soils of <i>Patloi Nala</i> Micro-Watershed	60-61
21	Analysis of the Clay Minerals Derived from the Dominant XRD Peaks for <i>Patloi Nala</i> Micro-Watershed	61-62

LIST OF TABLES (Contd...)

Table No.	Contents	In between Pages
22	Nutrient Schedule (classes) in terms of N, P ₂ O ₅ and K ₂ O (kg/ ha) as per West Bengal Soil Condition	62-63
23	Suggested Nutrient Schedule in terms of N (kg/ ha) for the <i>Patloi Nala</i> Micro-Watershed	62-63
24	Suggested Nutrient Schedule in terms of P ₂ O ₅ (kg/ ha) for the <i>Patloi Nala</i> Micro-Watershed	62-63
25	Suggested Nutrient Schedule in terms of K ₂ O (kg/ ha) for the <i>Patloi Nala</i> Micro-Watershed	62-63
26	Prescribed Lime Requirement Schedule	63-64
27	Lime Requirement study by SMP buffer method for <i>Patloi Nala</i> Micro-Watershed	63-64
28	Modified Criteria for Land Capability Classification	64-65
29	Derived Database for Land Capability / Soil Site Suitability	64-65
30	Obtained Land Capability Classification for <i>Patloi Nala</i> micro-watershed	65-66
31	Modified Soil Site Suitability Standards of Rainfed rice (Bunded) Under Moderate Management Practices	65-66
32	Obtained Suitability of Rainfed rice (Bunded) for <i>Patloi Nala</i> micro-watershed	65-66
33	Modified Soil Site Suitability Standards of Irrigated rice Under Moderate Management Practices	66-67
34	Obtained Suitability of Irrigated rice for <i>Patloi Nala</i> micro-watershed	66-67
35	Modified Soil Site Suitability Standards of Wheat Under Moderate Management Practices	67-68
36	Obtained Suitability of Wheat for <i>Patloi Nala</i> micro-watershed	67-68
37	Modified Soil Site Suitability Standards of Maize Under Moderate Management Practices	68-69
38	Obtained Suitability of Maize for <i>Patloi Nala</i> micro-watershed	68-69
39	Modified Soil Site Suitability Standards of Groundnut Under Moderate Management Practices	68-69
40	Obtained Suitability of Groundnut for <i>Patloi Nala</i> micro-watershed	69-70
41	Modified Soil Site Suitability Standards of Potato Under Moderate Management Practices	69-70
42	Obtained Suitability for Potato for <i>Patloi Nala</i> micro-watershed	69-70
43	A Comparison between Obtained Suitability and Farmer's Productivity in <i>Patloi Nala</i> micro-watershed	70-71
44	Suggested Action Plan for <i>Patloi Nala</i> micro-watershed	72-73

LIST OF TABLES (Contd...)

Table No.	Contents	In between Pages
CORRELATION TABLES		
Corr1	Correlation among important soil properties	73-74
Corr2	Correlation between soil properties and types of soil acidity	73-74
Corr3	Correlation between soil fertility and physico-chemical properties	73-74
Corr4	Correlation between some important soil properties and soil physical as well as hydrological properties	73-74

LIST OF FIGURES

Fig. No.	Contents	In between Pages
1	Location Map of <i>Upper Kasai</i> Watershed	26-27
2	Soils of <i>Upper Kasai</i> Watershed, District-Puruliya, West Bengal	27-28
3	Identified Critical Area for <i>Upper Kasai</i> Watershed, District-Puruliya, West Bengal	28-29
4	Identified Priority Area for <i>Upper Kasai</i> Watershed, District-Puruliya, West Bengal	28-29
5	Location of <i>Patloi Nala</i> Micro-Watershed	29-30
6	Landforms of <i>Patloi Nala</i> Micro-Watershed	47-48
7	Soils of <i>Patloi Nala</i> Micro-Watershed	47-48
8	Drainage of <i>Patloi Nala</i> Micro-Watershed	48-49
9	Slope Distribution of <i>Patloi Nala</i> Micro-Watershed	48-49
10	Erosion Status of <i>Patloi Nala</i> Micro-Watershed	48-49
11	Ground Water Potential of <i>Patloi Nala</i> Micro-Watershed	49-50
12	Existing Land Use of <i>Patloi Nala</i> Micro-Watershed	49-50
13	Soil Depth of <i>Patloi Nala</i> Micro-Watershed	51-52
14	Surface Textural Classes of <i>Patloi Nala</i> Micro-Watershed	51-52
15	Surface Soil Acidity of <i>Patloi Nala</i> Micro-Watershed	52-53
16	Surface Soil Organic Carbon Status of <i>Patloi Nala</i> Micro-Watershed	52-53
17	KMnO ₄ Oxidisable (Available) N Status of <i>Patloi Nala</i> Micro-Watershed	55-56
18	Olsen Extractable P ₂ O ₅ status of <i>Patloi Nala</i> Micro-Watershed	55-56
19	Ammonium Acetate Extractable K ₂ O of <i>Patloi Nala</i> Micro-Watershed	55-56
20	Critical Patches Suffering from Zn Deficiency in <i>Patloi Nala</i> Micro-Watershed	56-57

LIST OF FIGURES (CONTD...)

Fig. No.	Contents	In between Pages
21	Surface Bulk Density Indicating Restriction for Root Penetration in <i>Patloi Nala</i> Micro-Watershed	57-58
22	Lime Requirement Schedule by SMP Method for <i>Patloi Nala</i> Micro-Watershed (ACTION PLAN I)	63-64
23	Land Capability of <i>Patloi Nala</i> Micro-Watershed	65-66
24	Soil Site Suitability of Rainfed Rice for <i>Patloi Nala</i> Micro-Watershed	66-67
25	Soil Site Suitability of Irrigated Rice for <i>Patloi Nala</i> Micro-Watershed	66-67
26	Soil Site Suitability of Wheat for <i>Patloi Nala</i> Micro-Watershed	67-68
27	Soil Site Suitability of Maize for <i>Patloi Nala</i> Micro-Watershed	68-69
28	Soil Site Suitability of Groundnut for <i>Patloi Nala</i> Micro-Watershed	69-70
29	Soil Site Suitability of Potato for <i>Patloi Nala</i> Micro-Watershed	69-70
30	Suggested Action Plan "In Totality" of <i>Patloi Nala</i> Micro-Watershed	72-73

LIST OF GRAPHS

Graph No.	Contents	In between Pages
1	Soil Moisture Characteristic Curve for Dominant Upland Soil (Mr1)	58-59
2	Soil Moisture Characteristic Curve for Dominant Medium Land Soil (Mr3)	58-59
3	Soil Moisture Characteristic Curve for Dominant Medium Low Land Soil (Ds1)	58-59
4	Soil Moisture Characteristic Curve for Dominant Low Land Soil (Mr4)	58-59

LIST OF DIFFRACTOGRAMS

Diffractogram No.	Contents	In between Pages
1	Upland Surface Soil	61-62
2	Medium Land Surface Soil	61-62
3	Medium Land Sub-Surface Soil	61-62
4	Medium Low Land Soil	61-62
5	Low Land Soil Surface Soil	61-62
6	Low Land Sub-Surface Soil	61-62

LIST OF PICTURES

Pic. No.	Contents	In between Pages
1	<i>Patloi Nala</i> : An Overview	29-30
2	Average Sloping Terrain of <i>Patloi Nala</i> Micro-Watershed	44-45
3	<i>Patloi Nala</i> and Adjacent Landforms	45-46
4	An Average Alfisol Profile (Cuts) of <i>Patloi Nala</i> Micro-Watershed	51-52
5	Rice: The Most Dominated Crop Cultivated in <i>Patloi Nala</i> Micro-Watershed	70-71
6	People at Work in Building Water Harvesting Structure in <i>Patloi Nala</i> Micro-Watershed	77-78
