Acknowledgements

My first and foremost thanks goes to Almighty God who is always with me at all my good and bad times, in solving all my difficulties and for providing all the strength to surge forward in life and this time also for sure.

With immense pleasure, I wish to express my sincere and deep sense of gratitude to my respected supervisor Dr. (Mrs.) Hasir R. Das, Scientist, at the Institute of Genomics and Integrative Biology, CSIR, Delhi. At this moment, no available word seems to be adequate to express my heartfelt gratitude for her. Her constant encouragement, constructive criticism, invaluable guidance, keen interest, moral support and affection during the course of this investigation enabled me to achieve the goal. Her sense of patience, wit, cheerful temper and optimistic attitude are few qualities which will continue to inspire me in all spheres of my life. From you I have learnt not only the importance of growing into a good scientist but more importantly as a good human being. I would never have been in this exciting field of research without your constant encouragement. I take this opportunity to render my appreciation to her for introducing me to the fascinating field of glycobiology. I feel highly indebted to her.

I express my deepest gratitude to Prof. G. L. Sharma, Scientist, Institute of Genomics and Integrative Biology, CSIR, Delhi, Ex Director of Institute of Biomedical Sciences, Bundelkhand University, Jhansi (U.P.). His painstaking efforts, concrete suggestions, enlightening comments and immense care in going through the manuscript during writing part of my thesis and compilation in this form is greatly acknowledged. I learnt to remain optimistic in tough times from him.

I am extremely grateful and deeply indebted to Dr. R. H. Das, Deputy Director, Institute of Genomics and Integrative Biology, CSIR, Delhi, at the Institute of Genomics and Integrative Biology, Delhi, for his valuable suggestions and critical assessment of the work. His interest and enthusiasm in joining hands for doing bench work in molecular biology area gave me the inspiration for doing experimental work carefully with minute observations. I will always remember the help and kindness, he has shown towards me. His lessons on moral values will be a constant source of guidance to me.

This work could not have been possible without the support of Prof. S.K. Brahmacari, Director, Institute of Genomics and Integrative Biology, CSIR, Delhi. I extend my sincere gratitude to him for providing the infrastructure and platform to carry out the work.

I express my sincere thanks to Dr. Rambir Singh, Head, Department of Biomedical Science, Bundelkhand University, Jhansi, for the academic support he provided during the course of investigation.

My special thanks are due to Dr. Sangeeta Pal, Scientist, Department of Microbiology, IARI, PUSA, New Delhi, for permitting me to carry out experimental work and providing me critical suggestion, constant support and ready help during crucial stage of my work.

I am extremely grateful to Dr. Hemant Gautam, Dr. K. C. Gupta, Dr. Balram Ghosh, Dr. Y. Singh, Dr. Santosh Pasha, Dr. Pradeep Nahar and Dr. Ashok Kumar at IGIB, Delhi, for all kinds of help that has been provided to me.
My special thanks go to Dr. Monika Pathak who is like my younger sister and helped me during various phases of this work. Thanks to my labmates cum friends Hemlata Gautam, Sonu Gandhi, Bharat Singh, Praween Agarwal, Sunil Raghav, Bhavna Gupta, Ashish Saroha, Anand, Praween Kumar, Charu Agarwal, Puja, Gaurav, Indrajeet, Deepak, Vijayalatha and Nandini. I am indebted to all of them for providing a stimulating and fun environment to work in this Institute.

My special thanks go to my friend Ms. Jyotsana Gupta for her readiness to help whenever required. Her cheerful talks while working are unforgettable. I thank her profusely for being my enjoining friend and her dynamic help at the time of thesis compilation.

I sincerely appreciate the kind support of project trainees who came to the lab for a very brief period but left behind an indelible mark of their presence by being inspiring young friends.

My token of appreciation is also for Mr. K. L. Verma for providing me central instrumentation facility; Mrs. Shahji Ganju and Mrs. Sheel Batra for providing me computer facility in the library; Mr. Deepak Gandhi for his help for solving any kind of computer problem; Mr. Ajit Singh, Sh. R. P. Shrama, Sh. Indrajeet Kumar, Sh. Darshan Singh and the people at electrical and water department etc. The work could not have been possible if the help was not rendered by Mr. Satish, Mr. Suresh, Mr. Ajay and security guards for taking care of my experimental plants.

It is very difficult for me to thank all my friends at IGIB and outside individually. So, I would just say to them-THANK U ALL.

Finally, my feeling for my small family can not be put into words. The constant moral support, sympathy, suggestions, requirements, love and care of my husband Mr. Saradindu Biswas could be only felt. My small babies Ms. Shreyashri and Ms. Shubhashri were always missing me when I was at the other end of Delhi for doing my work. Their cheerfulness and vivaciousness took sting of a harsh day out on returning to home at night. Their hug and innocent affection was making me full of energy for performing my next day work. I am thankful to the caretaker of my babies who took full responsibility for accompanying and taking care of my babies. My special thanks goes to my younger sister Ms. Anamika Sikdar for helping me in timely availability of reprints of the paper and other useful information and suggestions whenever I required. I wish to thank my brother, sister and brother-in-law for their blessings and patronage. Last, but not the least, I thank my Ma and Bapi for giving me life in the first place, for educating me, for unconditional support and encouragement to pursue my interests, even when the interests went beyond the boundaries.

(Sagarika Biswas)
