CONTENTS

CHAPTER

ACKNOWLEDGMENTS .......... i
DECLARATION ............... iii
GENERAL NOTE .............. iv

SECTION - I

GENERAL

1. General Introduction. ........ 1
2. Climate of Jhansi during the course of study. .......... 11

SECTION - II

MICROBIAL DYNAMISM

SUB SECTION - A

QUANTITATIVE AND QUALITATIVE STUDIES

4. Introductions. ............... 18
5. Experimental - Isolation of micro-organisms. .......... 24
6. Result and conclusions. .......... 30

SUB SECTION - B

COMPARATIVE CELLULOLYTIC ABILITY

7. Introduction. ............... 47
8. Experimental. ............... 51
9. Result and conclusions. .......... 53

SUB SECTION - C

COMPETITIVE SAPROPHYTIC COLONIZATION

10. Introduction. .............. 54
11. Experimental. .............. 60
12. Result and conclusions. .......... 63
13. Summary and discussion. .......... 65

15. Experimental.  

Exp. A: Preliminary screening of selected organism against fungicides and antibiotics.  

Exp. B: To study the minimum inhibitory concentration of fungicides and antibiotics against the test organisms.  

Exp. C: To study the effect of selected fungicides and antibiotics on radial growth of test micro-organisms.  

Exp. D: To study the effect of fungicides on mycelial mat of fungal test organisms.  

Exp. E: To study the effect of fungicides and antibiotics on spore germination of micro-organisms.  

16. Result and Conclusions.  

17. Summary and discussion.  

SECTION - IV  

ENZYMOCLOGICAL STUDIES  

18. Introduction.  

19. Experimental.  

20. Result and conclusion.  

21. Summary and discussion.
SECTION V

22. General summary and conclusions. 159

SECTION VI

23. Miscellaneous. 176

A. Bibliography.

B. Appendix I and II.

C. Plates.
