It is a privilege to express my deep sense of gratitude to Prof. S. K. Sen for his invaluable guidance, critical advice and constant encouragement throughout the course this study. His support at each step helped me to develop interest in research work. I will remain ever grateful to him for accommodating me in his laboratory as a research scholar and providing me with extensive laboratory facilities to carry out this work.

I would also like to express my gratitude and sincere thanks to Dr. A. Basu, Dr. M. K. Maiti and Dr. D. Ghosh for their interest and helpful suggestion in every critical step of my work.

I am also indebted to Prof. D. J. Chattopadhyay, Pro-Vice Chancellor (Academic), University of Calcutta, Kolkata for his valuable suggestions and constant encouragement during the course of my research programme.

I am thankful to Prof. A. K. Ghosh, Head of the Department of Biotechnology, Indian Institute of Technology, Kharagpur and Dr. K. Panda, Head of the Dr. B. C. Guha Centre for Genetic Engineering Biotechnology, University of Calcutta, Kolkata for providing me all possible facilities to help my research efforts.

I would like to thank Prof. S. Ghosh, Prof. D. Ghosh and Dr. P. Paria for their help and encouragement.

I am grateful to Dr. P. S. Dasgupta, Dr. D. Basu and Dr. T. T. Sarkar who laid the foundation of knowledge in me and developing a keen interest in research during my Ph.D. programme.

I have been lucky to be associated with wonderful friends in the laboratory like Rajeswari Mukherjee and Dipanwita Sengupta. I am grateful to them for maintaining a lively and cheerful ambience in the lab.

It has been a great pleasure to me to work with Nandini Bandyopadhyay who made the laboratory an affable place to work. I have gained immensely working together with her in the laboratory.

days of my stay in the Advanced Laboratory for Plant Genetic Engineering (ALPGE). I have gained the benefit of their vast practical knowledge.

I would like to extend my sincere thanks to my lab colleagues Jagannath-da, Tanushree-di, Subrata, Sampurna, Jyoti, Saheli, Sirupa, Satarupa, Banani, Srimonta, Joydip, Anirban, Joy, Alpana, Pradipata, Arabinda, Tirthartha, Sheuli, Surojit, Prabuddha, Ch. Bhanu Priya, Milan, Rupam, Saborni for their cooperation.

My special thanks go to C. Maity for providing technical help at the work bench and offering attention to my plants. I am thankful to M. Prasad for his assistance in organizing the script of this dissertation in a presentable form.

I wish to thank all the technical staff members of ALPGE S. Bhattacharyya, A. Jana, M. Aditya, P. Mukherjee, B. Ghosh, N. Giri, S. Gogra, A. Bhowmik, P. Das, G. Aditya, D. Jana, S. Bera, S. Maity, B. Dogra, B. Manna, S. Ghosh, Sk. Wahid for extending their helping hands whenever I needed. It would have been an impossible task for me to perform all the experiments without their help and support.

I would like to take this opportunity to express my earnest gratitude to Mrs. S. Sen for her constant words of encouragement.

I offer my deepest sense of gratitude and eternal love to my late father who blessed me and supported me as long as he could to build me up as a noble human being.

Finally, I feel short of words to convey my sincere gratitude to my Maa for her constant support, concern and encouragement in my studies. My warmest thanks to my Choto Pisi, Choto Mama, Choto Maasi and P. Saha, A. Debnath for all the help they rendered during my study days. My heart goes all out to thank my family members especially to my brother, sister, sister-in-law and nephews for giving me the strength during my absence from home for research study.
