Acknowledgements

Although the foundation for doctoral studies is time and again an innovative concept budding from a significant thought process, it is only with assistance from a number of individuals over an interval of time that it transforms into a doctoral thesis. In view of that, I express gratitude to my Supervisor, Dr. Achintya Saha, Senior Lecturer, Department of Chemical Technology, University of Calcutta, for directing this investigation and for his generous time and commitment. I am especially indebted to him for encouraging me to develop independent thinking and research skills as well as for his dynamic support during different stages of this project. I am also grateful to my co-Supervisor, Dr. Arup Mukherjee, Professor, Department of Chemical Technology, University of Calcutta for his continuous support, encouragement and motivation.

I am thankful to Dr. Jayram Hazra, Assistant Director In-charge, Central Research Institute for Ayurveda (CRIA), Kolkata for arranging technical and material aid in some of the pharmacological and analytical experiments. In this connection, I express gratitude to Dr. Rita Banerjee, Dr. Sachchida Nand Upadhayay and Dr. Arati Roychowdhury, Scientists of CRIA, Kolkata for their liberal guidance and considerable help during some of the pharmacological and phytochemical experiments. I extend many thanks to Dr. Kunal Roy, Senior Lecturer, Department of Pharmaceutical Technology, Jadavpur University, Kolkata for extending research collaboration in one area of this project and for his valuable suggestions. It also gives me pleasure to thank Dr. N. D. Paria, Professor, Department of Botany, University of Calcutta for his generous time in authenticating the investigated herbal specimen. I am also thankful to Dr. Tapan Kumar Bhattacharya (Dr. H.N. Ghosh Professor of Applied Nutrition), Department of Chemical Technology, University of Calcutta and Dr. Sripama Dutta, Senior Lecturer, Department of Chemical Technology, University of Calcutta for their kind cooperation at different junctures. Many thanks to Dr. Pratip Kr. Debnath, Professor, Department of Kayachikitsa (Internal Medicine), J. B. Roy State Ayurvedic Medical College & Hospital, Kolkata for assisting me in getting through a good Ph.D. programme and for his bighearted support during several occasions.

I am indebted to the Vice-Chancellor, University of Calcutta, Head of the Department of Chemical Technology, University of Calcutta and Members of Ph.D. committee of the Faculty division for benevolent assistance throughout this project.

It gives me privilege to acknowledge Sanchita Mullick of Tata Consultancy Services, Pune (former M. Tech student in the Department) for her sincere assistance in many areas of this project and also to Shuchi Nagar, Research scholar in the Department for helping me in other important areas. I am also thankful to Sutapa, Anasuya, Sombit and Amit, M. Tech pre-final semester students for assisting me during the experimental part of this project. Thanks also to Benoy Brata Bhowmik, Lecturer, Himalyan Pharmacy Institute, Rangpo (erstwhile Ph.D. candidate in the Department), Sreyashree Basu, Ph.D. candidate in the Department, Santosh P, Santosh N and Sougoto, Project trainees in Our Laboratory for their munificent support and enthusiasm.

Assistances received from Anchrom, Mumbai in providing TLC photo-documentation of different specimens and from Narcissus Medical Centre, Srirampur, Hooghly in preparing the histological slides are also appreciatively acknowledged. I am especially indebted to them for extending free-of-cost service judging significance of the research undertaken. I am thankful to Animesh Palit and Rupak Sen of CyberMate, Srirampur, Hooghly for developing the AESFOMCI
Pro software used in this project and also to Internet Kiosk, Srirampur, Hooghly for providing IT related support at some point in time. Thanks to Dr. Kashi Nath Poddar of Clinical Laboratory, Kolkata in providing CLIA based analytical support and Lansdowne Graphic Centre, Kolkata for photomicrography of the histological sections.

It would be improper if I do not extend sincere gratitude to my dear friends, Sudipto Ganguly, Ph.D. candidate, University of Maryland, Baltimore (US) and to Dr. Indranil Bhattacharya, Principal Scientist, GlaxoSmithKline, King of Prussia (US) for providing bibliographic support when it was required. I am also thankful to my best friends Pawan Sharma, Ph.D. candidate, University of Manitoba (Canada) and to Uma Ranjan Lai, Ph.D. candidate, National Institute of Pharmaceutical Education and Research, Chandigarh for useful discussions.

I owe a special note of gratitude to my Supervisor for arranging substantial funds from All India Council for Technical Education (AICTE), New Delhi under Research Promotion Schemes. It would have been extremely difficult for me if these funds could not have been arranged on time. I am thankful to the Council of Scientific and Industrial Research (CSIR) for providing a Senior Research Fellowship during last few months of this project. Financial assistance received from Indian Science Congress Association in the form of Young Scientist award, Indian Chemical Society in the form of Dr. B. N. Mankad award and Sir P. C. Ray Research award from Department of Chemistry, University of Calcutta are also thankfully remembered. I express gratitude to Our University online journal facilities and bibliographic support from the Departmental library. I would also like to thank Librarians of CRIA, Kolkata, Indian Institute of Chemical Biology, Kolkata and Indian Association for the Cultivation of Science, Kolkata for extending library facilities when it was required.

Thanks to my Wife, Debalina for her assistance in formatting and typesetting some sections of this project and also for being patient and cooperative when it actually mattered. Thanks to my Parents for their constant motivation and support. I also take this opportunity to remember my Younger Brother who's no more here today but I am especially indebted to him for his ever encouraging moral support till the time he breathed his last.

I leave here a special note of gratitude for all others who might have also contributed in some way or the other, but whose names have been missed out on account of my mistake. It would be appreciated if I may be pardoned for that, judging the mind-boggling task involved in last minute formatting and compilations.

(SUBHENDU MUKHERJEE)
