ACKNOWLEDGEMENT

In a study covering such a wide field as the Doors, it is obvious that help received would be too many to be acknowledged individually. It would, however, be less than common courtesy not to acknowledge their help and suggestions that have indirectly helped in the preparation of this thesis. I hope, I would not be deprived of their blessing, if I fail in individual acknowledgement.

I specially like to express my gratitude and indebtedness to Sri B.C. Ghose, tea planter of repute, Sri B. Bhattacharya, Chief Agent, Central Bank of India, Jalpaiguri, Sri N. Bhattacharya (late), Trade Union Leader and Sri B.B. Ghose, Chairman of Indian Tea Planters' Association for 1967-1968, for arranging the visits to the tea estates, and helping us in various ways during the field work. My sincere thanks are also due to Sri B. Roy, Deputy Superintendent of Census Operation, Government of West Bengal, for providing valuable demographic data and also to Sri N. Bose, Deputy Director, Tea Promotion, Tea Board, for providing me with a set of photographs in connection with this work.

The acknowledgement would not be complete without mentioning the name of Dr. B. Banerjee, whose untiring attention, encouragement and help have guided my efforts all through and without which the thesis would not have taken its present shape.
