SCHOOL OF LIFE SCIENCES

Dated the 15th November 1973

Smt. Tapati (Mitra) Basu, M.Sc., undertook her research work under me. She has duly completed her thesis entitled "Studies on Host Specificity in Avian Haemsporidia" for the Ph.D. (Science) Degree of the University of Calcutta. She has a thorough grasp of the technique and material of her work. She made herself aware of the literature extant on the field. She has convinced me that she will be able to undertake similar investigation in future.

Smt. Basu has fulfilled the requirements of the regulations relating to the prescribed field of work for Ph.D. (Science) Degree of the University of Calcutta.
