

## LIST OF TABLES

Table 1. Formation of wheat germ eIF-2 GDP binary complex.

Table 2. Formation of wheat germ **eIF-2.Met.tRNA<sub>i</sub>.GTP** complex.

Table 3. eIF-2B activity in **heme-deficient** lysates treated with or without wheat germ **eIF-2**.

Table 4. Wheat germ **eIF-2.[<sup>3</sup>H]GDP** binary complex dissociation in the presence of purified phosphorylated **reticulocyte eIF-2 *in vitro***.
