The work embodied in the thesis entitled "Studies in Human leukemia" submitted for the degree of Doctor of Philosophy (Science) of the University of Calcutta, relates mainly to some aspects of lipid metabolism in human chronic myeloid leukemia in addition to studies of phosphate esters, nucleotides and proteins of both normal and leukemic cells in order to get some exploitable differences which might exist between the two conditions.

I am deeply indebted to Prof. S.C. Roy, D.Sc., Head of the Department of Biochemistry, Calcutta University, for his inestimable help throughout this investigation in the form of valuable suggestions, pertinent criticism and various facilities which made this work possible to the present stage of development.

I am extremely grateful to Prof. J.B. Chatterjee, Director, School of Tropical Medicine, for appropriate hospital facilities and the supply of clinical materials for our research work.

My heartfelt thanks are also due to Dr. R.K. Chakraborty of R.G. Kar Medical College, for his kind co-operation during the collection of clinical materials and many other help.
Grateful acknowledgment is made for the kind help rendered in many and different ways by Drs. (Mrs.) Malaya Gupta, Ramkrishna Kundoo, Rathin Roy and Sunanda Ghose, the last two associated with the School of Tropical Medicine, Calcutta.

I feel indebted to Drs. T.K. Ray, S.K. Chatterjee, K. Sikdar, Mr. S. Gupta and all other research associates in our Department for their various help in the work.

Very grateful thanks are due to Dr. Charles Bishop, Department of Medicine, the University of Buffalo, School of Medicine, New York, for giving me a very helpful suggestion regarding the separation of nucleotides in connection with my work.

I am indebted to Mr. A. Lahiri, Statistician, Indian Jute Industries Research Association for the statistical analysis of the experimental results embodied in this thesis.

My sincere gratitude to all the patients who have kindly donated the clinical materials throughout my work without which my work would have been impossible.

The work had been sponsored by the East India Pharmaceutical Works Ltd., Calcutta for which grateful acknowledgment is also made.

Calcutta
29th July, 1966.
