

ACKNOWLEDGEMENTS

I take this opportunity to record my deep, heartiest gratitude and profound indebtedness to Dr. T.S. Rao, M.Sc., Ph.D., Reader in Nuclear and Radiation Chemistry, University of Poona, for suggesting the problems and imparting precious guidance throughout the present research work.

I am thankful to Professor Dr. V.K. Phansalkar, M.Sc., Ph.D., Head of the Department of Chemistry, for allowing me to avail of the facilities during the course of my research.

I am grateful for the help and cooperation I received from my colleagues in the laboratory during the course of this work.

The award of Teacher Fellowship under the Faculty Improvement Programme by the University Grants Commission, New Delhi, India, enabling me ^{to} carry out this research work is also gratefully acknowledged.

I am further grateful to Shri P.K. Patil, Chairman of the Managing Committee, Shahada College, Shahada (Dhulia) and also to Principal Dr. V.M. Deshmukh for granting me study leave during the tenure of the Teacher Fellowship.

The constant and cheerful encouragement from my wife as also the inspiration and blessings from my parents have played a vital role in the early and successful completion of my thesis. I take this opportunity to humbly dedicate this work to my dear parents.
