Preface

Introduction

Aims and Objects

CHAPTER - I : Review of Literature

CHAPTER - II : Materials and Methods

CHAPTER - III : Effects of Whole Body Ionizing Radiation : Morphological And Functional Changes in the Small Intestine of Rats

SECTION - A : Morphological Changes

(a) Histological Pattern & DNA Distribution

(b) Mitotic Index & Villi Denudation

SECTION - B : DNA Content in the Intestinal Mucosa

SECTION - C : Absorption of Glucose in the Small Intestine

SECTION - D : Glycolytic function of the Intestinal Mucosa

(a) Phosphorylation of Sugar

(b) Formation of Pyruvate

(c) Formation of Lactate
### CHAPTER IV: Effects of Cold on Morphological and Functional Changes in the Small Intestine of Rats Exposed to Ionizing Radiation

#### SECTION A: Morphological Changes
- (a) Histological pattern & DNA Distribution
- (b) Mitotic Index and Villi denudation

#### SECTION B: DNA Content in the Intestinal Mucosa
... 90

#### SECTION C: Absorption of Glucose through the Small Intestine
... 103

#### SECTION D: Glycolytic Function of the Intestinal mucosa
- (a) Phosphorylation of Sugar
- (b) Formation of Pyruvate
- (c) Formation of Lactate

#### CHAPTER V: Ultrastructural Studies of Intestinal Epithelium in Irradiated and Hypothermic-Irradiated Rats
... 106

#### CHAPTER VI: Discussion
... 109
