I take this opportunity to express my deep sense of gratitude and indebtedness to my beloved teacher Dr. Amalesh Choudhury, Reader in Zoology, Calcutta University, under whose guidance and constant supervisions the whole work was completed.

I am indebted to Professor Asok Ghosh, Sir Hilratan Sircar Professor of Zoology and Head of the Department of Zoology, Calcutta University, for allowing me to avail the laboratory facilities in the Department of Zoology.

My sincere acknowledgements also to the authorities of Susana Devichoudhurani Marine Biological Research Institute, Sagar Island, 24 Parganas, West Bengal for the full-fledged facilities which the author enjoyed throughout the work.
The author is also grateful to late Dr. H. N. Ray, to late Dr. M. M. Chakravarty, Professor S. Mookerjee, Department of Life Sciences, Jawaharlal Nehru University, Delhi; Professors D. N. Ganguly, D. N. Raychaudhuri, A. S. Mukherjee, and Drs. K. C. Ghosh, S. G. Pal, A. K. Sircar, Department of Zoology, Calcutta University, for many of their inspiring suggestions.

The author also offers his unfailing gratitude to Principal S. B. Ghosh, Bangabasi College, Calcutta, for the kind facilities he released from the COSIP Project of University Grants Commission without which the substantial portion of this research work could not be possible. Moreover, I couldn't forget the co-operation, valuable suggestions which I received from my teachers, colleagues and friends of the Department of Bio-science, Bangabasi College. Also I owe to late Prof. G. C. Banerjee, Department of Zoology, Bangabasi College, who passed away so early in the last November.

The author also expresses his gratitude to Dr. S. Z. Gasim, Director, National Institute of Oceanography, Goa, India, Prof. K. Hanumantha Rao, Head of the Department of Zoology, Andhra University, Waltair, Sri P. Majumder, C.M.F.R.
Substation, Waltair, Dr. K. A. Narasimhan, C.M.F.R. Unit,
Kakinada, Andhra Pradesh, for providing working facilities
at their respective institutions.

My grateful thanks are extended to Dr. Anna Czapik, Uniwersytet,
Jagiellonski, Instytut Zoologii, Krakow, Poland; Dr. Michele
Laval Peuto, Laboratorie de Protistologie, Caen, France; and
Dr. Tom Fenchel, Institute of Ecology and Genetics, University
of Aarhus, Denmark, for valuable advice concerning Protozoological
techniques and identification of some species.

Best thanks are due to Dr. John O. Corliss, University of
Maryland, U.S.A.; Dr. R. F. Nigrelli, Osborn Laboratories of
Marine Sciences, New York; Dr. J. B. Jensen, Rockefeller
University, New York; Dr. Deban Banerjee, New York Blood
Centre, New York and Dr. Mrs. Shila Banerjee, New York,
for their valuable suggestions, active co-operation and kind
help which I received during my stay at New York in connection
with the Fifth International Congress of Protozoology held

Thanks are also due to Dr. J. Lom, Institute of Parasitology
of the Czechoslovak Academy of Sciences, Prague, Dr. P. de
Puytorac, France, Dr. G. A. Steen, Academy of Sciences, U.S.S.R.,
Dr. B. S. Morton, University of Hong Kong, Dr. W. Foissner, Zoologisches Institut, Salzburg, Dr. P. N. Ganapatil, Emeritus Scientist, Andhra University and Dr. M. A. Khan, Reader in Zoology, Osmania University, Hyderabad, India, for supplying many essential literatures on the subject.

It makes me extremely happy to avail the opportunity of tendering heartfelt thanks and gratitude to Prof. Michele Rommel, Prof. Friedhoff, Prof. Enigk, Mr. Wolphagen of the Institute für Parasitologie; Prof. Kämmerer, Dr. Arabinda Dey-Hazra of the Institute für Pharmakologie, Hannover, West Germany and Dr. S. L. Kambasik, Polish Academy of Sciences, Miss. Malgorzata Cielak and Mr. T. Stefan, Warszawa, Poland, for their kind help in colour photomicrography and providing necessary facilities and specially to Madam Siefert for her unforgettable financial support during my stay at Hannover, when I came there after attending the Fourth International Congress of Parasitology 19-26 August 1978 from Warszawa, Poland.

Thanks are also due to Dr. Miss Ann Sterling, Wigginton, England, for providing some coloured photographs and identification of some host materials from the British Museum
of Natural History, London and to Dr. K. K. Towari, Deputy Director, Dr. N. V. Subba Rao, Dr. K. N. Nair, Dr. A. K. Mond Dr. N. Mandi and Sri R. Ray, Zoological Survey of India, Calcutta for identifying the host materials and active co-operation.

The author gratefully acknowledges the active co-operation rendered by the artist Sri M. K. Sengupta, Zoological Survey of India and Sri D. Karmakar, Dr. Rabin Sur, Sri Saibal Roychoudhury, Sri Malay Mandal and Sri Anup Dutta, Research Scholars, Calcutta University, for some photomicrographs.

I would fail in my duty if I do not express my thanks to my other friends and colleagues of the Protozoology Research Unit, Calcutta University, for their help at various stages throughout the work.

Lastly, my heartiest thanks are due to Miss. Shukla Ghosh, Department of Zoology, Viswa-Bharati University, for her keen interest and appreciation to complete the work earnestly.
