ACKNOWLEDGEMENT

I wish to express my deep sense of gratitude and indebtedness to my teacher Dr. S. N. Poddar, Reader, Department of Inorganic Chemistry for his keen interest, valuable guidance and constant good wishes during the entire course of the present investigation.

My sincerest thanks are also due to Dr. S. P. Ghosh, Research Officer, Department of Inorganic Chemistry, for offering many valuable suggestions.

I like to express my thanks to Prof. P. C. Dutta, Dr. U. R. Ghatak, Reader, Department of Organic Chemistry, Dr. B. Sur, Reader, Department of Chemistry, Jadavpur University and Mrs. C. Dutta, Microanalyst, for their constant good wishes and encouragement.

My heartiest thanks are also extended to all of my friends and colleagues of my department for their assistance in various capacities and specially to Sri D. Thakurta, Sri N.S. Das, A.K. Das and Sri S. Roy Chaudhuri for their painstaking transcribing of the manuscript including figures.
Thanks are also due to the Council of Scientific and Industrial Research, Govt. of India, for financial assistance during the course of this work.

And finally, it is my privilege as well as pleasure to offer my sincerest thanks to Prof. Dr. D. Basu, Director, Indian Association for the Cultivation of Science, for kindly providing me with all sorts of facilities and good wishes.
