

ACKNOWLEDGEMENTS

The candidate takes this opportunity to express his deep appreciation to Dr. A. K. Maiti, Professor and Head of the Department of Biochemistry and Biophysics, Dr. B. C. Roy Postgraduate Institute of Basic Medical Sciences, Calcutta University, for generously providing all available facilities in his department, for his encouragement, care and guidance during the progress of this work, and for his constructive criticism of the material.

The candidate is grateful to Mr. S. S. Bari, Principal, Midnapore College, Midnapore, for his keen interest about the project and for providing necessary leave from the assignment time to time during the period of investigation.

The candidate takes the privilege to express his deep sense of gratitude to Dr. A. K. Ghosh, Dr. A. K. Sharma of Department of Biochemistry and Biophysics, Dr. B. C. Roy Postgraduate Institute of Basic Medical Sciences, Calcutta University, Dr. S. R. Dasgupta of Uttarpara College, Hooghly and Dr. S. K. Panda of M. M. C. College, Calcutta, for their unstinted assistance in every difficulty.

Sincere thanks are also accorded to Mr. A. K. Ghorai, Mr. R. R. Das, Dr. S. P. Paul, Mr. G. Sahu, Mr. A. P. Roy, all of Midnapore College for their kind help and cooperation in the time of necessity.

The author is also thankful to his all friends and colleagues who have contributed unnoticeably to this work.

Finally, the candidate expresses his deep feeling for the constant inspiration and encouragement he received from his father, father-in-law, wife and sister-in-law, during the progress of the work.
