ACKNOWLEDGEMENTS	
LIST OF TABLES	
LIST OF FIGURES	
LIST OF PLATES	
LIST OF SCHEME	
<u>CHAPTER-I</u> : INTRODUCTION	1
<u>CHAPTER-II</u> : REVIEW ON REPTILIAN HAEMATOLOGY	
General Account	5
Detailed Consideration	14
<u>CHAPTER-III</u> : TECHNICAL CONSIDERATION	
(A) Consideration About Animal	36
(B) Collection and Maintenance of Animal	40
(C) Material of Study	40
(D) Methods of Investigation	41
I. Methods for Investigating the Morphology and Cytology of Blood and Haematopoietic Tissue	41
II. Methods Employed for Obtaining Quantitative Haematological Data	45
III. Measurements and Drawings	49
(E) Experimental Design	49
<u>CHAPTER-IV</u> : MATURE BLOOD CELLS IN THE PERIPHERAL CIRCULATION	
I. Observation on Red Cell or Erythrocyte	56
II. Observation on White Cell or Leucocyte	68
III. Observation on Spindle Cell or Thrombocyte	82
Discussion	84
<u>CHAPTER-V</u> : IMMATURE BLOOD CELLS IN PERIPHERAL CIRCULATION	
I. Observation on Primitive Cells in the Peripheral Blood Stream	113
II. Observation on Primitive Blood Cells of the Haematopoietic Loci	119
III. Count of Immature Blood Cells from the Peripheral Circulation and Haematopoietic Loci	121
Discussion	124

-: Contents :-
(Contd.)

<u>CHAPTER-VI</u> : BLOOD CELLS AND HAEMATOPOIETIC LOCI UNDER HAEMOPARASITE INFECTION, STARVATION, COLD EXPOSURE AND CLOVE OIL ANAESTHESIA	
I. Observation on Blood Cell and Haematopoietic Loci under Haemoparasite Infection 	137
Discussion 	141
II. Observation on Blood Cells and Haematopoietic Loci under Starvation 	143
Discussion 	147
III. Observation on Blood Cells and Haematopoietic Loci under Cold Exposure 	148
Discussion 	152
IV. Observation on Blood Cells and Haematopoietic Loci under Clove Oil Anaesthesia 	155
Discussion 	160
 <u>CHAPTER-VII</u> : GENERAL CONCLUSION	 162
 SUMMARY	 172
