

LIST OF FIGURES

| | | <u>Page</u> |
|---------------------|---|-------------|
| <u>FIGURE-I.</u> | Size Distribution; Erythrocyte in <u>Calotes versicolor</u> ... | 58a |
| <u>FIGURE-II.</u> | Relative Percentage of Different Length/Breadth Ratio Classes of Erythrocyte in the Blood of Adult Male <u>Calotes versicolor</u> | 58b |
| <u>FIGURE-III.</u> | Percentage Occurrence of Length/Breadth Ratio Classes of Erythrocytes in Adult Male and Female <u>Clotes</u> <u>versicolor</u> | 58c |
| <u>FIGURE-IV.</u> | Percentage Occurrence of Length/Breadth Ratio Classes of Erythrocyte in Different Body Weight Groups of Male <u>Calotes versicolor</u> | 58d |
| <u>FIGURE-V.</u> | Total Count of WBC in <u>Calotes versicolor</u> of Different Body Weight | 77a |
| <u>FIGURE-VI.</u> | Total Count of WBC in <u>Calotes versicolor</u> in Different Months of the Year | 78a |
| <u>FIGURE-VII.</u> | Comparative Nucleocytoplasmic Ratio of Erythrocyte in Three Families : Lacertidae, Iguanidae and Agamidae ... | 88a |
| <u>FIGURE-VIII.</u> | Comparative Annual Variation of Haemoglobin and Total Erythrocyte Count in Adult Male <u>Calotes versicolor</u> ... | 93a |
| <u>FIGURE-IX.</u> | Comparative Erythrocyte Osmotic Fragility Curves for <u>Calotes</u> , Iguana, Pseudemys, Alligator | 95a |
| <u>FIGURE-X.</u> | Comparative Annual Variation of Total Erythrocyte and Leucocyte Counts in Adult Male <u>Calotes versicolor</u> ... | 111a |
| <u>FIGURE-XI.</u> | Dose Response in <u>Calotes versicolor</u> to Clove Oil Anaesthesia at 31°C | 160a |

LIST OF PLATES

| | | <u>Page</u> |
|------------------|---|-------------|
| <u>PLATE- 1.</u> | Photograph of <u>Calotes versicolor</u> in Walking Posture ... | 38a |
| <u>PLATE- 2.</u> | Photograph of <u>Calotes versicolor</u> in Busking Posture ... | 38a |
| <u>PLATE- 3.</u> | Photograph of Male <u>Calotes versicolor</u> (Dorsal View) ... | 38a |
| <u>PLATE- 4.</u> | Photograph of Male and Female <u>Calotes versicolor</u> (Dorsal View) | 38a |
| <u>PLATE- 5.</u> | Photomicrograph of Erythrocyte from Peripheral Circulation (1000X) | 57a |
| <u>PLATE- 6.</u> | Camera Lucida Drawing of Mature and Senile Erythrocyte from Peripheral Circulation | 57a |
| <u>PLATE- 7.</u> | Photomicrograph of Eosinophil (Espe) from Peripheral Circulation (1000X) | 69a |
| <u>PLATE- 8.</u> | Camera Lucida Drawing of Eosinophil (Espe) from Peripheral Circulation | 69a |
| <u>PLATE- 9.</u> | Photomicrograph of Eosinophil (Espl) from Peripheral Circulation | 70a |
| <u>PLATE-10.</u> | Camera Lucida Drawing of Eosinophil (Espl) from Peripheral Circulation | 70a |
| <u>PLATE-11.</u> | Photomicrograph of Basophil from Peripheral Circulation (1000X) | 74a |
| <u>PLATE-12.</u> | Camera Lucida Drawing of Basophil from Peripheral Circulation | 74a |
| <u>PLATE-13.</u> | Camera Lucida Drawing of Small and Large Lymphocyte from Peripheral Circulation | 76a |
| <u>PLATE-14.</u> | Camera Lucida Drawing of Monocyte and Plasma Cell from Peripheral Circulation | 76a |
| <u>PLATE-15.</u> | Camera Lucida Drawing of Nuclear Lobes in Eosinophil (Espe) | 82a |
| <u>PLATE-16.</u> | Photomicrograph of Thrombocyte from Peripheral Circulation | 82a |
| <u>PLATE-17.</u> | Camera Lucida Drawing of Erythroblast, Myeloblast and Lymphoblast from Peripheral Circulation | 114a |
| <u>PLATE-18.</u> | Camera Lucida Drawing of Early- and Late Normoblast from Peripheral Circulation | 114a |
| <u>PLATE-19.</u> | Camera Lucida Drawing of Promyelocyte and Myelocyte from Peripheral Circulation | 116a |
