LIST OF PUBLICATIONS

1. Rapid method of estimation of B₂O₃ in silicate materials by the application of cation exchange
   - Indian Ceramics, Vol.15, No.12.

2. Role of alkaline earth exchangeable cations on the dehydration kinetics of alumino-silicate hydrogel

3. Studies on alumino-silicate hydrogel: Characteristics of electrolyte sorption and its bearing upon cation exchange

4. Solubility-firing temperature relationship of clay minerals in relation to exchangeable cations
