ACKNOWLEDGEMENTS

I wish to express my gratitude to Prof. K. P. Sengupta, M.D., Ph.D., F.A.M.S., Director, Institute of Post Graduate Medical Education and Research, Calcutta, for his constant guidance and valuable suggestions during the course of this investigation.

Sincere thanks are also extended to Dr. (Mrs) Geeta Talukder, M.D., Ph.D., for her kind interest and constant encouragement.

I am indebted to Prof. C. C. Kar, Head of the Department of Cardiology, S. S. K. M. Hospital and to Dr. B. Mazumder, Reader, Division of Morbid Anatomy, N. R. S. Medical College for providing the research materials.

Grateful thanks are extended to Dr. J. Chatterjee, R.S.I.C., Bose Institute, for carrying out gas liquid chromatographic analysis and to Mr. H. Som and Mr. S. Dutta for photography.

I offer my sincere thanks to my friends and colleagues for their constant help and cooperation during this study.

Thanks are also due to the University Grants Commission, New Delhi, for the grant of a Junior Research Fellowship during the tenure of the work.
