ACKNOWLEDGMENT

The work was carried out under the guidance and supervision of Professor Sachchidananda Banerjee in the Research and Development laboratories of Dey's Medical Stores (Manufacturing) Limited, Calcutta-700 019, India. His constant help in the prosecution of the studies is gratefully acknowledged.

Sri Bhupendra Nath Dey, Managing Director of Dey's Medical Stores (Manufacturing) Limited gave encouragement and facilities for undertaking the research problem and kindly purchased the spectrophotofluorimeter used in the studies. He is a pioneer devoter of research in pharmaceutical industries of the country. A deep sense of gratitude is hereby expressed for his kindness and help.

Dr. Arun Kumar Mukherjee and Dr. Pranab Sankar Basu gave constant help without which the present work could not be possible. Their assistances are respectfully remembered.
