

## ***Acknowledgement***

*During my research I have worked with a great number of people who deserve special mention and whose contributions helped me very much in making this thesis a reality. I deem it a privilege to express my gratitude to all of them in my humble acknowledgement.*

*I thank God almighty, who in spite of all my trials and tribulations of past guided me in the writing and completion of this thesis. You have made my life more bountiful. May your name be exalted, honored, and glorified.*

*I would like to offer my deepest gratitude and sincere thanks to Dr. Beena Mathew, Reader, School of Chemical Sciences, Mahatma Gandhi University, Kottayam for her supervision, advice and guidance from the very early stages of this research. Her perpetual energy and enthusiasm for research has motivated me in the completion of this study. Without her innovative ideas, stimulating challenges, systematic guidance and constant support this research would not have been possible.*

*I am extremely grateful to Dr. P.K. Radhakrishnan, Director, School of Chemical Sciences, Mahatma Gandhi University, Kottayam for allowing me to use the necessary facilities to carry out this work. I offer my sincere thanks to all the other faculty members of the School for being supportive in many ways and to the staff of the University library for their help and support. I am grateful to Mrs. Sakeena, Dr. C. Arunan, and all the other members of the office, technical staff and the librarian of the School.*

*I owe my gratitude to the UGC for granting me the Teacher Fellowship under the Faculty Improvement Programme. I am indebted to the present and former Managers of Deva Matha College Kuravilangad, and to our Principal Dr. Tharsis Joseph, for granting me leave to complete this research and for their thoughtful support. I express my special gratitude to our former Principal,*

*Rev. Dr. Augustine Palackaparambil, who encouraged me to join the research and for his constant support and inspiration. I am also grateful to my colleagues in the Department of Chemistry and friends of Deva Matha College, Kuravilangad.*

*Collective and individual acknowledgements to my colleagues and friends at our research Lab-Dr. Suma Bino Thomas, Dr. Mercy Philip C, Rev. Dr. Sr. K..M. Annamma., Deepthy K.P., Smitha K.R., Anu K, Bindu M..S, Christy Philip, Shiby Susan Kuriakose, Subi Joseph, and Anju Augustine –for their support, friendship, and for the many interesting and useful discussions we have had. A word of thanks to my cousin Lida Kadavil and Prof. Mrs. Rebecca Mathew, C.M.S. College Kottayam for using their precious time to read this thesis and give their constructive criticism and valuable insights which were very helpful in the writing of my thesis. I also remember with gratitude Dr. Jissy Mathew, Rev. Dr. Sr.Theres, Rev. Sr Rocily, Rev.Sr. Lilly, my aunts and other friends for their support and prayer which helped me to overcome many frustrating moments during my research.*

*I wish to express my gratitude to the technical assistant RRL Trivandrum for providing the necessary spectral data and to Miniteck computers for their technical support in completing this thesis.*

*Words fail me in expressing my appreciation to my husband Joshy, whose dedication, love and persistent confidence in me, has taken the load off my shoulder. My deepest gratitude goes to my dear children, Riya and Reenu and to all other family members for their unflagging love and support throughout my life. I feel a deep sense of gratitude to my dear parents who had taken pain in bringing me up to this level and to my loving brothers and sisters for their concern and affection. Finally, I would like to thank everybody who was important in the successful realization of this thesis. I also express my apologies if I have failed to mention anyone here.*
