ACKNOWLEDGEMENT

No Ph. D. dissertation passes without the critical and constructive guidance from the supervisor. For the completion of this thesis my gratitude to Professor Prabodh Kumar Bhowmik deserves special mention.

I have also benefitted enormously from the observations and comments of Professors R. Mukherjee and B. P. Adhikari. Amongst my colleagues in the academic fraternity from whom I have received definite stimulation and valuable suggestions, I must mention S. Bandyopadhyay, K. Chattopadhyay, T. P. Tripathi, A. Basu, A. B. Gupta, T. Mukherjee, A. N. Salnis and A. Danda.

Many of the technical details of the dissertation like computation, preparation of maps, diagrams and their reprographs have been enriched by Ila Pal, N. Maity, J. Verghese and his colleagues. My sincere thanks are due to them.

I also thank the office staff of the Sociological Research Unit, ISI, particularly N. C. Saha, A. K. Basu and H. K. Chakrabarti for their ungrudging labour of love during the entire period of this research. To Khagendra Ch. Neogi I am grateful not only for his having agreed to type out the manuscript but also for taking the initiative of attending to minor details of editing on his own initiative.

I shall be failing in my duty if I do not acknowledge and appreciate the co-operation extended by the ripuata of Tarakeswar, large number of government officials, temple functionaries, pilgrims and residents who are too numerous to be named individually, but without whose co-operation this research would have been impossible to conduct.

I take this opportunity to express my deep sense of gratitude to the Indian Statistical Institute, Calcutta, for having provided me the resources needed to conduct the survey and the permission to use the data for this dissertation.

My wife, Shiuli, has not only been a constant source of inspiration right from the beginning of this work but has also helped me in comparing the typescript, preparing the glossary etc. I have no words to thank her sufficiently.

Prabhuilla Kumar Chakrabarti
