ACKNOWLEDGEMENT

The idea of pursuing research was fulfilled when I met Dr. Krishne Gowda, Professor of Urban and Regional Planning at the University of Mysore in 2004. He wholeheartedly encouraged and inspired me to study on “PROBLEMS OF SOLID WASTE MANAGEMENT: A Study of Hassan City”. I am extremely grateful to him for introducing me to the topic and guiding me through the various aspects of the thesis and research procedure. But for his constant effort and guidance, it would not have been possible to complete this work. I thank Dr. Krishne Gowda, profusely, for having stood by me through all stages of the research work.

I really have no words to describe the refinement brought about in the thesis, by the learned advice of Professor M. V. Sridhara, to whom I express my heartfelt gratitude.

I extend my special thanks to Prof. T. M. Mahesh, Director of IDS, Prof. K. V. Aiahnna, BOS Chairman in Development Studies, Prof. D. Shrijayadevaraj Urs, Ex-Director of IDS, Dr. M. Devaraj, Agricultural Marketing Specialist, Dr. B. Shankar, Reader, Mr. Kumar, H. S, Lecturer and the Staff of the Institute, who have given me assistance and support during the period of my Ph. D. work at the Institute of Development Studies.

Special thanks to Dr. Ravishankar, Asst. Chief of HUDCO, Mr. R. L. Sehgal, Editor, HUDCO-HSMI Publication, Ms. M. C. Hemalatha, Urban Planner, Dr. M. N. Chandrashekar, Dr. Sridhar Rajan, and Mr. Kumar A. C, CAD Station in Mysore, for extending invaluable assistance in the preparation of the various illustrations of the thesis.

(B. N. Hemalatha)
