CONTENTS

GENERAL INTRODUCTION ... ... 1 - 70

I. Differences among the species of Leishmaniae 3
II. Taxonomical position of L. donovani 5
III. Morphology of Leishmania cells 7
IV. Life cycle of L. donovani 14
V. L. donovani infection: host-parasite relationship and immunological characteristics 20
VI. Morphological transformation in Leishmania 33
VII. Laboratory cultivation of L. donovani 40
VIII. Biochemistry of L. donovani 48

AIM OF THE PRESENT STUDY 71 - 72

SECTION A : NUTRITIONAL STUDIES ON L. DONOVANI

Chapter 1 : Growth factor requirements for in vitro growth of L. donovani promastigotes. 73 - 82

Chapter 2 : Nutritional requirements of L. donovani promastigotes: Development of new medium for in vitro cultivation 83-88
### Chapter 3: Development of new lipid and protein free semidefined growth medium for *L. donovani* promastigotes

89 - 92

### Chapter 4: Nutritional requirements of *L. donovani* promastigotes: Formulation of a new chemically defined medium

93 - 100

### Discussion

101 - 114

#### SECTION B: MORPHOLOGICAL ALTERATION OF *L. DONOVANI* PROMASTIGOTES IN VITRO

<table>
<thead>
