ACKNOWLEDGEMENT

I take this opportunity to express my deep sense of gratitude to Late Professor S.M. Sircar, Ph.D. (Lond.), D.I.C., F.N.A., F.A.S., Fellow, German Academy of Natural Science; Emeritus Scientist, ICAR, Department of Botany, University of Calcutta; Ex-Director, Bose Institute, Calcutta, India, for the initiation of the scheme.

I have great pleasure in expressing my profound sense of gratitude to Dr. P.K. Sircar, Lecturer in Botany, Calcutta University, for his guidance and supervision of the research work throughout the period.

I also deem it my privilege to express my sincere and deep sense of gratitude to Dr. P.K. Nagar, Research Associate, CSIR, Department of Botany, Calcutta University, for his guidance and supervision, valuable suggestions and critical discussions during the course of investigation and writing the thesis.

I am highly indebted to the Head of the Department of Botany, Calcutta University, for providing me the necessary facilities for the work.

The author is indebted to Dr. D. Guha Baxi of BSI, Sibpore, Howrah and Mr. G. Hait, Kalyani University, for their kind help in collecting the materials.
I greatly acknowledge the assistance of Miss R. I. Iyer, Mrs. B. Agarwal, Mr. B. Chakraborty and Mr. K. Dey of the Department of Botany, Calcutta University.

Thanks are due to Mr. S. Ghosh and Mr. R. Mondal for their help during the course of this investigation.

The author is thankful to the Department of Science and Technology, Govt. of India, for awarding him the Junior Research Fellowship and financial assistance.

Lastly the candidate expresses his deep feelings for constant inspiration and encouragement he received from his parents.
