LIST OF TABLES

Table 1 - Number of towns by size classes.
Table 2 - The population of 9 giant urban complexes of India.
Table 3 - Growth of cities by sizes (1931-81).
Table 4 - Population of the major cities of India.
Table 5 - Percentage (Decade) Variation in population 1901-71.
Table 6 - Urban population in different States of India: 1951 & 1961.
Table 7 - Urban population in States of India, 1961 & 1971.
Table 8 - Evolutionary pattern of Calcutta in different periods.
Table 9 - Evolutionary pattern of Bombay in different periods.
Table 10 - Evolutionary pattern of Delhi in different periods.
Table 11 - Evolutionary pattern of Madras in different periods.
Table 12 - Evolutionary pattern of Hyderabad in different periods.
Table 13 - Evolutionary pattern of Bangalore in different periods.
Table 14 - Evolutionary pattern of Kanpur in different periods.
Table 15 - Distribution of urban population by size during 1961-1971.
Table 16 - All-India trends of urbanization, 1901-1971.
Table 17 - Growth of cities by sizes.
Table 18 - Percentage of urban population in different States of India.
Table 19 - The population contributed by Class I cities.
Table 20 - Percentage increase of population in the major metropolitan cities of India, 1911-71.
Table 21 - Migration of population in metropolitan cities of India during 1941-61.
Table 22 - Total population in the metropolises, 1971.
Table 23 - Literate population of the metropolises, 1971.
Table 24 - Changes in sex ratio (Females per 1000 Males)
Table 25 - Population of Calcutta, Bombay and Madras with births and deaths per 1000, 1961.
Table 26 - Working population, 1971.
Table 27 - Calcutta District.
Table 28 - Growth of Calcutta urban agglomerations.
Table 29 - Growth of population in Greater Bombay.
Table 30 - Growth of population in Delhi urban agglomerations.
Table 31 - Population by main administrative division in Delhi.
Table 32 - Growth of population in Madras city and metropolitan area.
Table 33 - Growth of population in Madras urban agglomerations.
Table 34 - Variation of population in Hyderabad Urban agglomeration.
Table 35 - Variation of population in Bangalore urban agglomeration.
Table 36 - Variation of population in Kanpur urban agglomeration.
Table 37 - Proposed land use pattern of selected metropolises in 1971.
Table 38 - Land use of Calcutta.
Table 39 - Existing land use distribution of urban Delhi, 1970.
Table 40 - Land use break-up of Madras city, 1964.
Table 41 - Proposed land use of Bangalore.
Table 42 - Basic functions of the metropolises of India, 1977.
Table 43 - Comparative use categories of the CBD of the Indian metropolises, 1965.
Table 44 - Number of households and occupied residential houses in the million cities, 1971.
Table 45 - Bustees in Calcutta with area, population and density of bustee population per sq.km., 1970.

Table 46 - Structure of residential households in Indian cities, 1961 (expressed as per cent of the total).

Table 47 - Intensity of housing shortage in Indian cities, 1964.

Table 48 - Shortage of pucca residential buildings (as in July, 1970).

Table 49 - List of industries in Calcutta, 1975.

Table 50 - Industrial units and employment in Calcutta & West Bengal, 1970-'75.

Table 51 - Small scale and cottage industries in Calcutta, 1975.

Table 52 - Position of industries (large scale) 1973, Greater Bombay.

Table 53 - Position of industries (small scale) 1973, Greater Bombay.

Table 54 - Industrial progress in Delhi.

Table 55 - Registered factories according to groups in Delhi.

Table 56 - Small scale and cottage industries in Delhi, 1970.

Table 57 - Number of factory units and employment in different industrial units in Kanpur, 1971.

Table 58 - Regional specialisation (in % of the total factory workers), 1960.

Table 59 - Working population in the million cities of India, 1971.

Table 60 - Industrial position of the various metropolitan areas of India, 1971.

Table 61 - Occupational structure of the million cities, 1971.

Table 62 - Working population of the million cities of India, 1971.

Table 63 - Percentage of workers in three basic activities of the million cities of India, 1971.
Table 64 - Index of specialization and total surplus workers in the million cities of India, 1971.

Table 65 - Number of house connections of water supply in Calcutta Corporation, 1975.

Table 66 - Length of Drains and Sewers of the Calcutta Corporation.

Table 67 - Situation of the present traffic volume, in Calcutta.

Table 70 - Slow-moving vehicles in Calcutta (1972).

Table 71 - Number of accidental deaths (1971).

Table 72 - Daily arrivals at Howrah and Sealdah Stations.

Table 73 - Total cargo handled at major ports (1972-73).

Table 74 - Movement of articles by rail and river from the metropolises, 1971-72.

Table 75 - Activities of Delhi Transport Corporation, 1975-76.

Table 76 - Roads in Delhi, 1974-75 (in Kms.).

Table 77 - Decennial variations of population in Calcutta city core, 1901-71.

Table 78 - Growth of population of Calcutta urban agglomeration, 1901-1971.

Table 79 - Vital Statistics - Births and Deaths per mille in Calcutta.

Table 80 - Population density - Calcutta.

Table 81 - Per capita income and expenditure of various Corporations, (1970).

Table 82 - Details of per capita expenditure incurred by various Corporations, 1970.

Table 83 - Shortages of pucca residential house as on 1st July, 1970, according to income-group.
Table 84 - Estimated shortage of pucca residential buildings (as in July 1970).

Table 85 - Percentage distribution of households by number of living rooms.

Table 86 - Mass transportation in selected metropolitan cities.
