

Contents

| | | |
|----------|---|-----------|
| 1 | Introduction | 1 |
| 1.1 | Anderson Model | 1 |
| 1.2 | Mott's Picture | 3 |
| 1.3 | Interaction | 5 |
| 1.4 | Experimental Facts on Doped Semiconductors | 7 |
| 1.5 | Hopping Conduction | 11 |
| 1.6 | Variable-Range Hopping | 12 |
| 1.7 | Percolation | 13 |
| 1.8 | Role of Interaction | 15 |
| 1.8.1 | Mean Field Derivation of Coulomb Gap | 15 |
| 1.8.2 | Soft Coulomb Gap | 18 |
| 1.8.3 | Effect of the Coulomb Gap on the d.c Conductivity | 20 |
| 1.8.4 | Relaxation and the Coulomb Gap | 22 |
| 1.9 | Glassy Properties | 24 |
| 2 | Thermodynamics of Coulomb Glass | 28 |
| 2.1 | Linked Cluster Expansion | 32 |
| 2.1.1 | Model | 32 |
| 2.1.2 | Unrenormalized Linked Cluster Expansion | 33 |
| 2.1.3 | Graphical Definitions | 34 |
| 2.1.4 | Free Energy W , Unrenormalized Form | 35 |

| | | |
|----------|--|-----------|
| 2.1.5 | Vertex Renormalization | 36 |
| 2.1.6 | The Free Energy | 39 |
| 2.1.7 | Φ derivable Approximations | 40 |
| 2.2 | The Model | 42 |
| 2.3 | Replica Method | 42 |
| 2.4 | Results | 50 |
| 2.5 | Internal Field Distribution | 51 |
| 2.6 | Mean Field Theory | 52 |
| 3 | Simulations in Coulomb Glass | 56 |
| 3.1 | Algorithm | 60 |
| 3.2 | Single particle density of states | 61 |
| 3.3 | Correlation Functions | 62 |
| 3.4 | Correlation in Occupation Numbers | 65 |
| 3.5 | Configuration Space | 67 |
| 4 | Correlated Hopping in Coulomb Glass | 73 |
| 4.1 | The Rate Equation | 75 |
| 4.1.1 | The linearized Rate Equation | 75 |
| 4.1.2 | Generalized Master Equation | 76 |
| 4.1.3 | Random Walk Interpretation | 77 |
| 4.1.4 | Conductivity | 78 |
| 4.2 | Review Of The Correlated Random Walks | 79 |
| 4.3 | Correlated Random Walk in Disordered Systems | 81 |
| 4.4 | Model | 83 |
| 4.5 | Greens Function Formalism for Conductivity | 85 |
| 4.5.1 | Tight Binding Analogy | 85 |
| 4.5.2 | Renormalized Perturbation Expansion | 86 |

| | | |
|----------|--|-----------|
| 4.5.3 | Effective Medium Approximation | 88 |
| 4.6 | Results | 90 |
| 5 | Formation of the Coulomb gap | 96 |
| 5.1 | Model | 98 |
| 5.2 | Time Dependent density of States | 99 |
| 5.3 | Conductivity | 103 |
