

ACKNOWLEDGEMENTS

The author takes pleasure to acknowledge the guidance and encouragement, as well as the constructive criticism received from his supervisor, Dr. S.K. Sanyal, Ph.D.(Cantab), Ex-Assistant Professor of Chemistry, Presidency College, Calcutta, during the course of this investigation.

The author is also thankful to Professor D.N. Chatterjee, Head of the Department of Chemistry, Presidency College, Calcutta, for providing the necessary laboratory facilities.

Sincere thanks are extended to Professor M. Adhikari, Acharyya P.C. Ray Professor, Department of Agricultural Chemistry and Soil Science, University of Calcutta, and Professor S. Aditya, Department of Applied Chemistry, University of Calcutta for helpful discussions.

Thanks are also accorded to the author's friends, and colleagues for their sincerest help and cooperation, whenever called for.

Finally, the author wishes to acknowledge his indebtedness to the Government of West Bengal for financial assistance in course of this investigation.
