ACKNOWLEDGEMENT:

The author wishes to express his deepest respect, sincere gratitude and heart-felt thanks to Dr. P.P. Das, Professor-in-Charge and Vice-Principal (Admin.), Bengal Engineering College for his inspiring guidance and valuable suggestions throughout this investigation. The author also feels that without such encouragement and active co-operation it would have been very difficult to complete this work successfully.

The author wishes to record his sincere thanks and deepest respect to Dr. A.K. Seal, Principal, Bengal Engineering College, for his immense help through fruitful discussions, valuable suggestions and tremendous encouragement at every phase of this research work.

The author extends his whole-hearted thanks to Mr. S. Chatterjee and N.R. Bandopadhyay for their help in carrying out this research systematically.

The author also wishes to thank the Head of the Department of Metallurgy, Jadavpur University, the Directors C.I. Met., Ichapur and Project Co-ordinator, R & DC, SAIL, Ranchi for providing facilities to carry out some experimental work in their Laboratories. The author is also thankful to the Head, Department of Metallurgy, Bengal Engineering College for
various assistance.

Thanks are also due to Mr. N.C. Khamaru and Mr. P. Chowdhury who helped and assisted for carrying out various experimental work.

The author takes the pleasure to offer his sincere thanks to M/s. Liluah, Iron & Steel Works (P) Ltd. and M/s. Agarwal Iron Works (P) Ltd. for extending facilities to prepare the melts for the present investigation.

Last but not the least the author thanks Mr. P. K. Nandi, Mr. A.K. Nag, Mr. N. G. Chatterjee, Mr. B. Ghosh, Mr. S. Sarkar and to all those who had been intimately associated with this work by way of extending various helps in the successful accomplishment of the task.
